## FINALTERM EXAMINATION STA630- Research Methods https://www.vustudy.com/

Question No: 1 (Marks: 1) - Please choose one <u>The part of the action research spiral that differentiates this research methodology from</u> other kinds of research is;

- ► Looking at multiple sources of data.
- ► Taking action based on results.
- ► Thinking about or analyzing data in more than one way.
  - ► The kinds of data that are collected.

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1490/381555.cw/index.html

Question No: 2 (Marks: 1) - Please choose one

Individuals who engage in action research are most concerned with:

- Supporting the way things are being done.
- Publishing results
- Proving a hypothesis
- ▶ Improvement

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1490/381508.cw/index.html

Question No: 3 (Marks: 1) - Please choose one

Research may differ along a series of dimensions. Which of the following may be applied to this statement?

- ► The level of manipulation used to elicit data collection.
- ► The data-collection technique.
- ► The type of data collected.
- **Type, technique and manipulation of data collection.**

Question No: 4 (Marks: 1) - Please choose one

Which of the following statements best defines hypothesis?

- ► A quantitative study.
- ► A tentative prediction of the results of the research.
- ► A qualitative research design.
- ► The operational definition of the study.

Question No: 5 (Marks: 1) - Please choose one What is the first step in the research process? Problem definition

Define broad problem area

- ► Theoretical framework
- Preliminary data collection

## (page 33)

# The research process consists of a number of steps. The first step in any research is selecting the topic, which could start from the broad area of interest

Question No: 6 (Marks: 1) - Please choose one

When there is a need of generating new ideas for hypotheses or to interpret the results of some research, which one is the best research deign?

- Experiment
- Surveys

Focus group discussion

► Communication analysis

(PAGE 38)

Question No: 7 (Marks: 1) - Please choose one

Which of the following is an example of deception in business research?

- ► The obtaining of company material without permission.
- ► The researcher wearing a disguise during an observation.
- The researcher representing their research as being about a different topic

The researcher failing to ask permission to interview someone. http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch05/

## Question No: 8 (Marks: 1) - Please choose one

Which of the following is least likely to occur as an ethical problem with electronic research?

Privacy could be invaded.

People are not likely to be able to stop once they have begun participating.

- Debriefing could be avoided.
- ► Informed consent cannot be completely monitored.

## Chapter 1

Question No: 9 (Marks: 1) - Please choose one

All of the following are unethical issues, EXCEPT;

- Invoicing irregularities
- ► Avoiding legal liability
- ► Misrepresenting results

Seeking permission for entry

## page41

## **Unethical activities**

- Violating nondisclosure agreements.
- Breaking respondent confidentiality.
- Misrepresenting results.
- Deceiving people.

• Invoicing irregularities.

• Avoiding legal liability.

Question No: 10 (Marks: 1) - Please choose one

Which of the following is the difference between measures and indicators?

Measures are unambiguous quantities, whereas indicators are devised from common sense understandings.

► Indicators have a more direct relationship to the underlying concept than measures.

► Measures are intuitively devised and then applied as if they were direct indicators of a concept.

► Indicators are unambiguous quantities, whereas measures are subjective and value-laden.

http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch06/

#### Question No: 11 (Marks: 1) - Please choose one

The extent to which a test provides scores that are meaningful, appropriate, or useful is referred to as;

- ► Reliability
- ► Accuracy
- ► Internal validity
- Validity

http://wps.prenhall.com/chet\_airasian\_edresearch\_8/38/9866/2525945.cw/content/index. html

Question No: 12 (Marks: 1) - Please choose one

Which of the following functions is performed by the Ordinal scale?

- ► Categorize
- Distance
- Order
- ► Unique origin

Question No: 13 (Marks: 1) - Please choose one

What is the difference between interval/ratio and ordinal variables?

▶ Ordinal data can be rank ordered, but interval/ratio data cannot.

The distance between categories is equal across the range of interval/ration data.

► Interval/ratio variables contain only two categories.

► Ordinal variables have a fixed zero point, whereas interval/ratio variables do not. http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch14/

Question No: 14 (Marks: 1) - Please choose one

Which of the following statement refers to cross-sectional design?

- A comparison of two or more variables over a long period of time
- ► The collection of data from more than one case at one moment in time
- One that is devised when the researcher is in a bad mood

► A study of one particular section of society, e.g. the middle classes http://www.oup.com/uk/orc/bin/9780199284986/01student/cgs/ch02/

Question No: 15 (Marks: 1) - Please choose one Which of the following is TRUE for research plan?

- ► It should be detailed.
- ► It should be given to others for review and comments.
- ► It sets out the rationale for a research study.

All of the given options

http://www.scribd.com/doc/22683412/Lecture-Notes-Research-Chaper-1-9

Question No: 16 (Marks: 1) - Please choose one

Which of the following typically does NOT apply to observers in survey research studies?

► They observe predetermined activities.

They are participant observers.

- ► They obtain information by watching rather than asking.
- ► They must be careful not to influence the activities they observe.

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1490/381582.cw/index.html

Question No: 17 (Marks: 1) - Please choose one

Which of the following is not an advantage of the self-completion questionnaire over the structured interview?

- ► It is cheaper to administer.
- ► It is quicker to administer.
- It is easier to prompt the interviewee.
- ► It is easier to remove interviewer effects. .

http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch09/

Question No: 18 (Marks: 1) - Please choose one

Mr. X has coded his observations to hide the identity of each of the three participants in his study. He is ensuring;

- ▶ protection from harm
- confidentiality
- ▶ informed consent
- ► anonymity

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1489/381347.cw/index.html

## Question No: 19 (Marks: 1) - Please choose one

The cover letter to a questionnaire study should contain all of the following, EXCEPT;

## A list of participants

- ► A self-addressed, stamped envelope
- Purpose of the study
- ► Reasons to respond

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1490/381582.cw/index.html

Question No: 20 (Marks: 1) - Please choose one

Teachers are advised to predict the results of student attitudinal questionnaires, because;

► It will help them decide if students answered truthfully.

It gives them a point of comparison against which to judge actual responses.

► It will allow them to apply statistical procedures in analyzing results.

► It helps them familiarize themselves with the questionnaires.

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1490/381508.cw/index.html

Question No: 21 (Marks: 1) - Please choose one

In conducting an action research study of "student's organizational skills during class in a particular school", which of the following would NOT likely to provide useful data?

- ► Interviews with teachers
- Classroom observations

Parent surveys

► Teacher's journal entries

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1490/381508.cw/index.html

Question No: 22 (Marks: 1) - Please choose one

Why it is helpful to keep a research diary or log book while you are conducting your project?

► To give you something to do in the early stages of your research when nothing is happening.

► Because funding councils generally demand to see written evidence that you were working every day during the period of the research.

To keep a record of what you did and what happened throughout the research process.

► It can be added to your dissertation to ensure that you reach the required word limit.

http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch03/

Question No: 23 (Marks: 1) - Please choose one

Which of the following is likely to happen if clear instructions are not given as to how the respondent should answer the question?

▶ Respondents may delete inappropriate answers rather than select appropriate ones.

► Respondents may choose only one answer when they need to choose as many as apply.

► Respondents may complete questions that are not relevant to them.

All of the given options

http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch09/

Question No: 24 (Marks: 1) - Please choose one

Which of the following is NOT a suitable topic for research using a diary?

- ► The amount of time managers spend on particular activities.
- ► The frequency with which managers undertake particular tasks.

► The locations in which a trade union representative has discussions with individual members.

► The volume of female managers in the retail industry. http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch09/

#### Question No: 25 (Marks: 1) - Please choose one

Which of the following represents excellent advice for conducting an interview?

- ► Listen more and talk less
- ► Don't interrupt
- ► Don't be judgmental about the interviewee's beliefs or views

All of the given options

Question No: 26 (Marks: 1) - Please choose one

Which of the following is an example of a dilemma that might face feminist business researchers conducting qualitative interviews with women?

- ▶ What role to adopt while interviewing male managers?
- ► How many female employees should be interviewed for a representative sample?
- How to overcome the issue of false consciousness?

► What data to use while publishing findings? http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch18/

Question No: 27 (Marks: 1) - Please choose one

Which of the following sampling strategies was used when the three students with the highest GPAs were selected?

Extreme case

Snowball

- Maximum variation
- ► Normal case

# http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1489/381384.cw/inde x.html

#### Question No: 28 (Marks: 1) - Please choose one

Which type of sampling strategy is exemplified by selecting two types of individuals: those who are extremely happy and those who are extremely sad?

- ► Snowball
- Intensity
- ► Homogeneous
- ► Purposive

http://wps.prenhall.com/chet\_airasian\_edresearch\_8/38/9866/2525932.cw/index.html

Question No: 29 (Marks: 1) - Please choose one

The logic of purposive sampling is:

► To use participants because the researcher has access to them.

► That a random sample can generalize to a population

That a few information-rich participants studied in depth yield many insights about a topic.

► To include all participants, even though they are not all relevant to the problem. http://wps.prenhall.com/chet airasian edresearch 7/5/1488/381150.cw/index.html

## Question No: 30 (Marks: 1) - Please choose one

Using a sample of 30 participants, a researcher finds a correlation of 0.30 between two variables. The relationship is not statistically significant. If the researcher were to triple her sample size, which of the following is most likely?

The correlation would be statistically significant.

- ► The correlation would be larger.
- ► The correlation would be smaller.
- ► Nothing is likely to change.

http://wps.prenhall.com/chet airasian edresearch 7/5/1490/381655.cw/index.html

## Question No: 31 (Marks: 1) - Please choose one

Which of the following steps begins the analysis of qualitative data?

- ► Reading and memoing
- ► Describing the content and participants
- ► Classifying and interpreting
- Data management

http://wps.prenhall.com/chet airasian edresearch 7/5/1489/381427.cw/index.html

## Question No: 32 (Marks: 1) - Please choose one

Which of the following represents the most general conceptualization in qualitative data analysis?

- ► Word
- ► Topic
- ► Category
- Pattern

## http://wps.prenhall.com/chet airasian edresearch 7/5/1490/3814 83.cw/index.html

Question No: 33 (Marks: 1) - Please choose one

Which of the following BEST differentiates data analysis from interpretation?

Interpretation requires more conceptual and integrative thinking than data

- analysis.
  - ► Interpretation involves computerized analysis of data.
  - ▶ Data analysis is explanatory and interpretation is conceptual.
  - ▶ Data analysis involves conceptualization but interpretation does not.

http://wps.prenhall.com/chet airasian edresearch 8/38/9871/2527149.cw/content/index. html

Question No: 34 (Marks: 1) - Please choose one

The statistic used to determine the relationship between two variables is:

- ► Analysis of covariance
- ► Chi square
- Standard deviation

▶ Pearson "r"

## http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1491/381743.cw/inde x.html

Question No: 35 (Marks: 1) - Please choose one

Which of the following is NOT a control procedure used in causal-comparative research?

- ► Matching.
- ► Subgroups.
- Chi square.
- ► Analysis of covariance.

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1491/381743.cw/index.html

## Question No: 36 (Marks: 1) - Please choose one

Which of the following best describes qualitative data coding?

- ► Adding all of the scores together and describing them statistically.
- Identify data segments that contain general episodes.
- Numerically representing the concepts identified by the participants.
- Dividing data in parts that represent single thoughts.

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1490/381473.cw/index.html

Question No: 37 (Marks: 1) - Please choose one

The bivariate tables derived from trivariate table are called;

- ► Sub table
- ► Bivariates
- ▶ Partials
- Correlational tables

## (HANDOUT PAGE 110)

http://free-books-online.org/mathematics/business-mathematics-statistics/researchmethods-business-mathematics-statistics/the-parts-of-the-table/

Question No: 38 (Marks: 1) - Please choose one

Quasi-experimental research is used because:

- ► Random selection is not possible
- ► Neither random selection nor random assignment is possible
- Random assignment is not possible
- ► There are no comparison groups available <u>http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1491/381820.cw/index.html</u>

Question No: 39 (Marks: 1) - Please choose one

A researcher believes that the effects of a treatment will be different for males and females. Which one is the best method to test this possible interaction?

## Single-subject design

- Factorial design
- ► Time-series design
- ► Quasi-experimental design

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1491/381820.cw/index.html

#### Question No: 40 (Marks: 1) - Please choose one

The influence of the researcher's background, personal experiences, preferences, or attitude on an interview or observation is technically defined as:

- ► Participant bias
- Observer bias
- ► Observer effect
- ► Nonparticipant effect

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1489/381347.cw/index.html

#### Question No: 41 (Marks: 1) - Please choose one

On which component of his field notes did Mr. Majid focused when he expressed in his notes his thoughts and ideas about what he observed?

- ► Description
- Reflection
- Protocol
- ► Formal data

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1489/381345.cw/index.html

## Question No: 42 (Marks: 1) - Please choose one

Which of the following is linked with an abstract model of underlying relations or causal mechanism?

- Historical comparative research
- ► Social research
- ► Action research
- ► Experimental research

## (HANDOUT PAGE 147)

Question No: 43 (Marks: 1) - Please choose one

In which section is the researcher allowed greater flexibility to express opinions, discuss implications for educational practice, and suggest additional research?

- ► Review of the literature
- ► Significance of the study
- Results
- Discussion

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1492/382157. cw/index.html

Question No: 44 (Marks: 1) - Please choose one

Which of the following can be referred as Haphazard Sampling?

- Convenience Sampling
- Purposive Sampling
- Snowball Sampling
- ► Quota Sampling

http://www.starmass.com/en/research\_sampling\_method.htm

# Haphazard sampling is sometimes referred to as convenience or accidental sampling.

Question No: 45 (Marks: 1) - Please choose one An important issue in index construction is to-----items.

http://www.google.com/#sclient=psy&hl=en&site=&source=hp&q=+An+important+issu e+in+index+construction+is+to-----items.&aq=f&aqi=&aql=&oq=&pbx=1&fp=a4d2fea6da4ca5a4 Four important issues when developing an index:

- 1. Defining the concept to be measured
- 1. Selecting the items to be included in the index
- 1. Combining the items to form an index
- 1. Weighting the separate items

Question No: 46 (Marks: 1) - Please choose one

Which of the following elements of Observation is/are included in Non Reactive research?

- ► External Appearance
- Count Behaviors
- ► Time Duration

#### All of the given options

http://free-books-online.org/mathematics/business-mathematics-statistics/researchmethods-business-mathematics-statistics/non-reactive-research-2/

Question No: 47 (Marks: 1) - Please choose one

Secondary /existing data may include which of the following?

- Official documents
- Personal documents
- ► Archived research data
- All of the given options

http://www.southalabama.edu/coe/bset/johnson/mcq/mc6.htm

#### Question No: 48 (Marks: 1) - Please choose one

Which of the following major problem exist with non respondents in survey research?

- ► They tend to be alike in many ways.
- ► Data cannot be analyzed for only part of a sample.
- ▶ They cannot be found to determine if they are similar to respondents.
- They may have different opinions than respondents.

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1490/381580.cw/index.html

#### (ch#10 question 5)

Question No: 49 (Marks: 1) - Please choose one

Which of the following advantage differentiates personal interview from mail, internet and telephonic survey?

- ► Cheaper
- ► Expensive
- ► Easier
- ► Inexpensive

#### (PAGE 69)

#### As the cost of personal interviews continues to increase, telephone interviews are becoming relatively inexpensive.

felemer

Question No: 50 (Marks: 1) - Please choose one

Which one of the following methods offers the lowest degree of geographic flexibility?

- ► Mail survey
- ► Telephone interview
- Door-to-door personal interview
- ► Internet survey

## Chapter 7

Question No: 51 (Marks: 1) - Please choose one

Which of the following survey research methods is the most expensive?

- ► Telephone interview
- ► Mail survey
- Door-to-door personal interview
- ► Mall intercept personal interview

Chapter 7

#### Question No: 52 (Marks: 1) - Please choose one

When a respondent tells the interviewer that he reads "Best Selling English News Paper" on a daily basis so that he can impress the interviewer, this is an example of:

- ► Administrative bias
- Interviewer bias
- ► Submission bias
- ► Response bias

#### Question No: 53 (Marks: 1) - Please choose one

All of the following are stages in the selection of a sample EXCEPT:

- ► Determine sample size
- Analyze data
- ► Conduct fieldwork
- ► Select a sampling frame

## Question No: 54 (Marks: 1) - Please choose one

A stratified sample in which the number of sampling units drawn from each stratum is in proportion to the population size of that stratum is called a: element

- ► Balanced stratified sample
- Proportional stratified sample
- Cluster sampling
- ► Convenience sample

#### If the number of sampling units drawn from each stratum is in proportion to the relative population size of the stratum, the sample is proportionate stratified sampling.

Question No: 55 (Marks: 1) - Please choose one

Assigning males the value of zero and females the value of one in a database to record the gender of the respondents is an example of:

## ► Coding

- ► Editing
- ► Verification
- ► Test tabulation

http://www.audiencedialogue.net/gloss-data.html

## (HANDOUT PAGE 99)

Question No: 56 (Marks: 1) - Please choose one

Arranging data into a table is called:

- ► Analysis
- ► Frequency
- ► Interpretation
- Tabulation

http://www.tutorvista.com/math/tabulation-of-data-tutoring

#### Question No: 57 (Marks: 1) - Please choose one

A researcher interested in a data matrix that displays the frequency of some combination of possible responses to multiple variables should construct a:

## Contingency table

- ► Regression equation
- ► Marginal table
- ► None of the given options

## (HANDOUT PAGE 105)

Question No: 58 (Marks: 1) - Please choose one

When initial subjects are selected randomly and additional subjects are obtained from recommendations of names from the initial subjects, this sampling technique is called:

- ► Judgment sample
- ▶ <mark>Snowball</mark>
- ► Convenience sample
- ► Cluster sample

Page#91

And also here is link

http://wiki.answers.com/Q/You\_are\_in\_charge\_of\_promoting\_a\_new\_flavor\_of\_toothpas te\_yet\_to\_be\_produced\_in\_a\_toothpaste\_manufacturing\_unit\_Which\_sampling\_techniqu es\_will\_you\_use\_to\_get\_the\_required\_data\_from\_a\_population

## Question No: 59 (Marks: 1) - Please choose one

When different interviewers are used in a pretest from those used in the posttest and this produces different results in the study, this is an example of a:

- ► History effect
- ► Mortality effect

## Instrumentation effect

► Cohort effect

(PAGE 121)

Question No: 60 (Marks: 1) - Please choose one

Which of the following is a threat to the internal validity of experiment using a repeated measures design?

## Instrumentation effect

- ► Cohort effect
- ► Attrition effect
- ► All of the given options

## (PAGE 121)

Question No: 61 (Marks: 1) - Please choose one

Most threats to \_\_\_\_\_\_ are taken care of by the experiment's design, while most threats to \_\_\_\_\_\_ need to be taken care of by the designer of the experiment.

- ► Internal validity, external validity
- External validity, internal validity
- Randomization, reliability
- Reliability, randomization

http://books.google.com.pk/books?id=8fzjO4PygQsC&pg=PA140&lpg=PA140&dq=Ext ernal+validity+taken+care+of+by+the+experimental+design&source=bl&ots=mcsIDFN5 xB&sig=li3gP1l0Rc6SLzE4VBb1ajZTaMc&hl=en&ei=awgyTeP8MdCEhQeSu\_ThCw &sa=X&oi=book\_result&ct=result&resnum=6&ved=0CDwQ6AEwBQ#v=onepage&q= External%20validity%20taken%20care%20of%20by%20the%20experimental%20design &f=false

## Question No: 62 (Marks: 1) - Please choose one

In which of the following, the beginning and end are not clear. The interview can be picked up later?

Survey Interview

## Field Interview

- Deception
- ► None of the given options

## (page 139)

**Field Interview** 

. 1. The beginning and end are not clear. The interview

can be picked up later.

## Question No: 63 (Marks: 1) - Please choose one

The written set of guidelines that describes an outline of topics to be covered by a focus group moderator is called a:

ner

## Discussion guide

- Concept test
- ► Case study
- ► All of the given options

## Question No: 64 (Marks: 1) - Please choose one

Which of the following is a disadvantage of focus groups?

- Requires objective, sensitive, and effective moderators
- ► May not be useful for discussing sensitive topics
- ► High cost

All of the given options

# Solved By Asma Saeed, Pariha Maqbool

Mehvish, Anam Aslam, Ahmed, Ramiz and Kamran Haider

FINALTERM EXAMINATION Spring 2009-STA630-Research Methods (Session - 2)

Marks: 80

## Question No: 1 (Marks: 1) - Please choose one

Who, among the following, wrote the book "Research Methods for Business"? Zikmund, W. Sekaran, U. Dessler, G. Neuman, W.C.

## REFERENCE

- 1. Zikmund, W. G. (2003). *Business Research Methods*. Mason, Ohio: South Western.
- 2. Sekaran, U. (2004) . *Research Methods for Business* New York: John Wiley & Sons

## Question No: 2 (Marks: 1) - Please choose one

On which of the following, Scientific knowledge mostly relies? Identification of events Logical understanding Prior knowledge All of the given options (page 4)

## Question No: 3 (Marks: 1) - Please choose one

Which of the following refers to research supported by measurable evidence? Opinion Speculation Empiricism Rationalism http://en.wikipedia.org/wiki/Empiricism

## Question No: 4 (Marks: 1) - Please choose one

All of the following are true statements about action research EXCEPT;

Data are systematically analyzed. Data are collected systematically. **Results are generalizable.** Results are used to improve practice. http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1490/381508.cw/index.html

## Question No: 5 (Marks: 1) - Please choose one

If a researcher is studying the effect of using laptops in his classroom to ascertain their merit and worth, he is likely conducting which of the following types of research?

## Evaluation

Experimental Applied

Basic

http://wps.prenhall.com/chet\_airasian\_edresearch\_8/38/9865/2525631.cw/index. html

## Question No: 6 (Marks: 1) - Please choose one

What is the problem with using strict definitions of important concepts?

## They take the focus away from accurate measurement. They prevent the researcher from assessing alternative ways of viewing a concept.

They prevent a consistent approach being achieved with business research. They prevent research from being truly objective. http://www.oup.com/uk/orc/bin/9780199284986/01student/cgs/ch16/

## Question No: 7 (Marks: 1) - Please choose one

A variable that is presumed to cause a change in another variable is known as: Discontinuous variable Dependent variable Independent variable Intervening variable http://www.southalabama.edu/coe/bset/johnson/mcq/mc2.htm

## Question No: 8 (Marks: 1) - Please choose one

Which of the following is the difference between measures and indicators? Measures are unambiguous quantities, whereas indicators are devised from common sense understandings.

Indicators have a more direct relationship to the underlying concept than measures.

Measures are intuitively devised and then applied as if they were direct indicators

#### of a concept.

Indicators are unambiguous quantities, whereas measures are subjective and value laden.

#### REF

http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch06/

#### Question No: 9 (Marks: 1) - Please choose one

Which of the following is NOT the implication of Ordinal scale? Characteristics of nominal scale Rank the object Does not provide magnitude of object **Provide rate** 

#### (PAGE 53)

#### Question No: 10 (Marks: 1) - Please choose one

Measurement reliability refers to which of the following? Accuracy of the scores

Dependency of the scores

## Consistency of the scores

Comprehensiveness of the scores.

http://books.google.com.pk/books?id=RBJh8J8lRakC&pg=PA16&dq=Measurement+rel iability+refers&hl=en&ei=0tQtTaicFMfDswblv\_XlBw&sa=X&oi=book\_result&ct=resul t&resnum=2&ved=0CCkQ6AEwAQ#v=onepage&q=Measurement%20reliability%20ref ers&f=false

#### Question No: 11 (Marks: 1) - Please choose one

Which of the following statements might assist response rates? Please photocopy the questionnaire five times and pass on to your work colleagues.

Please make sure that the questionnaire is completed with a fountain pen. Please read the attached journal article on the ontological foundations of positivism prior to completing the questionnaire.

Please put the completed questionnaire in the enclosed stamped addressed envelope and place in the mail out tray.

REF:

http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch09/ Q#3

#### Question No: 12 (Marks: 1) - Please choose one

Why it is important to avoid ambiguous terms while designing questions? Respondents may not understand the question.

#### Respondents may operate with a different frame of reference.

Respondents may think the question is less important.

Respondents may have to ask for help when completing the guestionnaire.

An ambiguous term such as 'often' or 'management' may mean different things to different respondents.

http://www.vuzs.net/index.php?option=com content&view=article&id=650:sta630-100solved-mcq-from-book-c&catid=262:sta630-research-methods&Itemid=55

## Question No: 13 (Marks: 1) - Please choose one

Which of the following is a double-barrelled question? How satisfied you are with the performance appraisal system? How satisfied you are with investment levels in new and existing software packages? How satisfied you are with the organisation's marketing strategy?

How satisfied you are with the levels of customer satisfaction? REF:

Page 78

Double-barrelled questions are ones that ask about two things. This question should in fact be split into two, one about existing software and one about new software.

## Question No: 14 (Marks: 1) - Please choose one

The small scale trial run of a particular item is called pdfelemer Test Run

Pilot test Post hoc test T test REF: Page 80

Pilot testing also called pre-testing means small scale trial run of a particular component;

## Question No: 15 (Marks: 1) - Please choose one

Which of the following terms describes an interview protocol in which the topics and questions to be addressed are identified, but the order in which the questions can be asked is not stipulated?

Unstructured Partially structured Semistructured

Structured

RFF.

http://wps.prenhall.com/chet airasian edresearch 8/38/9870/2526923.cw/content/index. html

## Question No: 16 (Marks: 1) - Please choose one

The most important characteristic of the sample in survey research is that it is:

#### **Representative of the target population.**

Convenient to access. Easily observed in naturalistic settings. Large enough to compare differences between subgroups.

#### REF:

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1490/381619.cw/index.html

#### Question No: 17 (Marks: 1) - Please choose one

Which of the following is NOT something a researcher will have to consider while thinking about their sample size? Time and cost. Non-response.

#### Length of questionnaire.

Heterogeneity of population.

http://www.oup.com/uk/orc/bin/9780199284986/01student/cgs/ch07/

#### Question No: 18 (Marks: 1) - Please choose one

A correlation coefficient of -0.45 is generally considered to be; No correlation

Low

Moderate

High

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1490/381655.cw/index.html

#### Question No: 19 (Marks: 1) - Please choose one

What is a researcher doing when he removes the variance explained by one variable in order to understand the correlation between two other variables?

Statistical significance Attenuation Controlling for the variable Multiple regression research http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1490/381655.cw/index.html

#### Question No: 20 (Marks: 1) - Please choose one

Which of the following best describes qualitative data analysis? It begins after all the data has been collected. It is an ongoing, cyclic process integrated into all phases of research. It is an awkward, haphazard process. It builds from abstraction to specific, concrete examples

http://wps.prenhall.com/chet\_airasian\_edresearch\_8/38/9871/2527149.cw/content/index. html

#### Question No: 21 (Marks: 1) - Please choose one

The statistic used to determine the relationship between two variables is: Analysis of covariance Chi square Standard deviation Pearson "r" http://wps.prenhall.com/chet airasian edresearch 7/5/1491/381743.cw/index.html

#### Question No: 22 (Marks: 1) - Please choose one

Which of the following describes the nature of qualitative data interpretation? Reflection Integrative

Explanatory All of the given options

#### Question No: 23 (Marks: 1) - Please choose one

In frequency tables total of columns and rows are called: Body of table Cell of table Area of table Marginals Page No.107: PARTS OF TABLE Include the totals of the columns and rows. These are called *marginals* They equal the univariate frequency distribution for

These are called *marginals*. They equal the univariate frequency distribution for the variable.

#### Question No: 24 (Marks: 1) - Please choose one

A researcher studies three groups of students who vary in level of selfconfidence. She finds that students with higher self-confidence are more popular among their peers. The most plausible conclusion is that:

We do not know what causes self-confidence or popularity. Self-confidence causes popularity. Popularity causes self-confidence. Self-confidence and popularity are related.

## Question No: 25 (Marks: 1) - Please choose one

Educational policymakers often conclude that an intervention didn't work. Often, however, the intervention was not implemented as intended. The validity of the policymaker's conclusion is threatened by;

Lack of specificity of variables

Selection-treatment interaction Treatment diffusion Faulty data analysis procedures http://wps.prenhall.com/chet\_airasian\_edresearch\_8/38/9869/2526465.cw/index.html

## Question No: 26 (Marks: 1) - Please choose one

Many beginner researchers believe that research involves testing, treating, and testing again . This is an example of:

Comparison group research

Quasi-experimental research

True experimental research

Pre-experimental research

http://wps.prenhall.com/chet airasian edresearch 7/5/1491/381818.cw/inde x.html

## Question No: 27 (Marks: 1) - Please choose one

Which of the following questions can be answered using content analysis? How do managers behave in the face of employment insecurity? **How do the media report corporate re-branding exercises?** What effect does organizational size have on marketing strategy? What are the most popular leisure activities amongst the over-50s?

http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch12/

## Question No: 28 (Marks: 1) - Please choose one

Case study is empirical because;

It investigates a contemporary phenomenon within its real life context. It is retrospective study in which the researcher follows the research process from effect to its cause.

It is a study back in time.

## All of the given options

(page 158)

It investigates a contemporary phenomenon within its real life context. It is retrospective study in which the researcher follows the research process from effect to its cause. It is a study back in time.

Question No: 29 (Marks: 1) - Please choose one

Which component of a research report contains information about the topic studied, literature review, hypotheses, participants, instruments, procedures, results, and discussion? Preliminary pages Main body Method Discussion Page 161 http://wps.prenhall.com/chet\_airasian\_edresearch\_8/38/9872/2527359.cw/index.html O#3

#### Question No: 30 (Marks: 1) - Please choose one

Which one of the following Test helps in the proper sequence of the questions as wording, translation, coding and structuring?

Test Run Pre Test Post Hoc Test T- Test REF: Page 81

## Question No: 31 (Marks: 1) - Please choose one

Which of the following sampling is least reliable but normally the cheapest and easiest to conduct? Purposive Sampling Snowball Sampling Convenience Sampling Quota Sampling

Ref:

**Page No.90:** Convenience samples are least reliable but normally the cheapest and easiest to conduct

#### Question No: 32 (Marks: 1) - Please choose one

Which of the following is a form of Non-random sampling? Snowball sampling Convenience sampling Quota sampling All of the given option (Page 90)

#### Question No: 33 (Marks: 1) - Please choose one

Which of the following has greatly facilitated the researcher to conduct tabulation and statistical analysis? SPSS MINITAB SYSTAT

## All of the given options

**Page No.104:** The proliferation of computer technology in business and universities has greatly facilitated tabulation and statistical analysis. Commercial packages eliminate the need to write a new program every time you want to tabulate and analyze data with a computer. SAS, Statistical Package for the Social Sciences (SPSS), SYSTAT, Epi. Info. And MINITAB is commonly used statistical packages.

## Question No: 34 (Marks: 1) - Please choose one

What is the place of quotations in referencing? Quotations should be given at the end. Quotations should be given exactly as they appear in the source. Quotations should be given in left margins only. Quotations should not be given at all. Ref: http://www.latrobe.edu.au/linguistics/resources hons/Brochure/Para10.pdf

## Question No: 35 (Marks: 1) - Please choose one

Which of the following terms refers to a statistical method that can be used to statistically equate groups on a pretest or some other variable? Experimental control Differential influence Matching <u>Analysis of covariance</u> <u>http://www.southalabama.edu/coe/bset/johnson/mcq/mc9.htm</u>

## Question No: 36 (Marks: 1) - Please choose one

Which of the following could be used for randomly assigning participants to groups in an experimental study? Split-half Even versus Odd numbers Use a list of random numbers or a computer randomization program Let the researcher decide which group will be the best http://www.southalabama.edu/coe/bset/johnson/mcg/mc9.htm

#### Q No 15

## Question No: 37 (Marks: 1) - Please choose one

The design in which one group of research participants is administered a treatment and is then compared, on the dependent variable, with another group of research participants who did not receive the experimental treatment is known as:

One-group posttest-only design One-group pretest-posttest design

Posttest-only design with non-equivalent groups

Time series design

http://www.southalabama.edu/coe/bset/johnson/mcq/mc9.htm Q N26 Question No: 38 (Marks: 1) - Please choose one Which of the following is referred to as the influence of a single independent variable? Interaction effect Reactive effect Main effect Proactive effect http://www.southalabama.edu/coe/bset/johnson/mcq/mc9.htm Q NO 27

Question No: 39 (Marks: 1) - Please choose one Which of the following types of analysis can be done using secondary analysis? The analysis of specific subgroups Longitudinal analysis Cross-cultural analysis All of the given options

REF: http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch13/

Question No: 40 (Marks: 1) - Please choose one Which of the following is/are advantage(s) of the self-completed questionnaire? Inability to confirm who completed the questionnaire Its unsuitability for some kinds of respondents Inability to ask many questions that are not directly relevant to the respondent Easy to justify the answer.

http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch09/

# Solved By Asma Saeed, Pariha Maqbool Mehvish, Anam Aslam, Ahmed, Ramiz and Kamran Haider

FINAL TERM EXAMINATION Spring 2010 STA630- Research Methods (Session - 3)

> Time: 90 min Marks: 69

Question No: 1 (Marks: 1) - Please choose one

The part of the action research spiral that differentiates this research methodology from other kinds of research is;

► Looking at multiple sources of data.

Taking action based on results.

Thinking about or analyzing data in more than one way.

▶ The kinds of data that are collected.

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1490/381555.cw/index.html

#### Question No: 2 (Marks: 1) - Please choose one

If a researcher was studying the use of various instructional approaches to the "multiple intelligences" of his students, he is likely to be conducting which of the following type of research?

- Basic
- Evaluation
- Applied

Grounded theory

http://wps.prenhall.com/chet\_airasian\_edresearch\_8/38/9865/2525631.cw/index.html

#### Question No: 3 (Marks: 1) - Please choose one

Which type of review compares how different theories address an issue?

- Context review
- Integrated review
- Methodological review
- Theoretical review

#### (PAGE 27)

#### (PAGE 27) THEORETICAL REVIEWS COMPARE HOW DIFFERENT THEORIES ADDRESS AN ISSUE.

Question No: 4 (Marks: 1) - Please choose one

Which of the following functions is performed by theoretical framework?

- Elaborates the relationship among the variables.
- Explains the logic underlying these relationships.
- ▶ Describes the nature, and direction of the relationships.
- All of the given options.

#### (PAGE 30)

Question No: 5 (Marks: 1) - Please choose one

Panel and cohort designs differ in that:

- ► Cohort studies involve quantitative research, whereas panel studies are qualitative.
- ► A panel study does not need rules to handle new entrants to households.
- Only a cohort study will suffer from sample attrition.

A panel study can distinguish between age effects and cohort effects, but a cohort design cannot. <u>http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch02/?view=za</u>

#### Question No: 6 (Marks: 1) - Please choose one

Which of the following would LEAST likely be a data source for an action research study of "teachers' questioning techniques in social studies classes"?

- Classroom observation
- Student questionnaires
- Videotaping of classes
- Students' standardized test scores

#### http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1490/381508.cw/index.html

#### Question No: 7 (Marks: 1) - Please choose one

Which of the following represents excellent advice for conducting an interview?

- Listen more and talk less
- ► Don't interrupt
- Don't be judgmental about the interviewee's beliefs or views
- All of the given options

#### [PPT]

#### **Qualitative Research Methods**

#### Question No: 8 (Marks: 1) - Please choose one

Why should a business researcher record and transcribe interviews?

- It overcomes all possible ethical considerations.
- ▶ The response of participants can be more readily shared with senior management.
- It allows a more thorough examination of what the interviewee has said.

► It allows the researcher to demonstrate his/her technical proficiency.

http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch18/

#### Question No: 9 (Marks: 1) - Please choose one

The Pearson product moment correlation is used to demonstrate the relationship between;

- Two continuous variables
- Two rank-ordered variables
- ► Variables that are expected to be curvilinearly related
- Dichotomous variables

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1490/381655.cw/index.html

#### Question No: 10 (Marks: 1) - Please choose one

The statistic used to determine the relationship between two variables is:

- Analysis of covariance
- Chi square
- Standard deviation
- Pearson "r"

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1491/381743.cw/index.html

#### Question No: 11 (Marks: 1) - Please choose one

Researchers organize data into all of the following, EXCEPT:

- Field
- Table
- ► Record
- ► File

(page 99)

#### Researchers organize data into fields, records, and files.

Question No: 12 (Marks: 1) - Please choose one

Which of the following is NOT a necessary step in conducting experimental research?

Manipulation of an independent variable

- Selection of measuring instruments
- Creating a hypothesis stating a causal relationship between variables

Dividing the sample into subgroups to control for extraneous variables

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1491/381867.cw/index.html

#### Question No: 13 (Marks: 1) - Please choose one

Testing most likely, negatively affect internal validity when:

- The information tested is attitudinal in nature
- The time between pre- and posttest is short
- ► The instrument is unreliable
- ▶ The participants are very low scorers

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1491/381818.cw/index.html

#### Question No: 14 (Marks: 1) - Please choose one

Which of the following questions can be answered using content analysis?

- ▶ How do managers behave in the face of employment insecurity?
- How do the media report corporate re-branding exercises?
- ▶ What effect does organizational size have on marketing strategy?
- ▶ What are the most popular leisure activities amongst the over-50s?

http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch12/

# odfelement Question No: 15 (Marks: 1) - Please choose one

Which one is not the part of non reactive research?

- Physical traces
- Archives
- Observations
- Interviews

#### (HANDOUT PAGE 124)

#### Question No: 16 (Marks: 1) - Please choose one

On which component of his field notes did Mr. Majid focused when he expressed in his notes his thoughts and ideas about what he observed?

- Description
- Reflection
- Protocol
- Formal data

http://wps.prenhall.com/chet airasian edresearch 7/5/1489/381345.cw/index.html

#### Question No: 17 (Marks: 1) - Please choose one

Which of the following is linked with an abstract model of underlying relations or causal mechanism?

- Historical comparative research
- Social research
- Action research
- ► Experimental research

(HANDOUT PAGE 147)

Question No: 18 (Marks: 1) - Please choose one

Historians organize evidence usually in:

Comparative form

Narrative form

Logical form

Critical form

(PAGE 150)

#### HISTORIANS ORGANIZE EVIDENCE AS THEY WRITE WORKS OF HISTORY. THEY OFTEN WRITE *NARRATIVE HISTORY*.

#### Question No: 19 (Marks: 1) - Please choose one

What is the difference between a focus group and a group interview?

A focus group is used to analyse group interaction, whereas a group interview is used as a straight forward data collection tool.

► A focus group is used only for political research, whereas group interviews are more widely used in the social sciences.

► A focus group is used at the planning stage of a research project, whereas a group interview is part of the actual data collection.

► A focus group is used to discuss a wide range of issues, whereas a group interview looks at one specific topic.

http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch19/

#### Question No: 20 (Marks: 1) - Please choose one

In which component of the method section would you find a discussion of validity and reliability?

- Participants
- Instruments
- Design
- Procedures

#### Question No: 21 (Marks: 1) - Please choose one

Which of the following sampling is least reliable but normally the cheapest and easiest to conduct?

- Purposive Sampling
- Snowball Sampling
- Convenience Sampling
- Quota Sampling

http://www.authorstream.com/Presentation/umersaif-486982-sample-by-umer-saif/ SLIDE 11

#### Question No: 22 (Marks: 1) - Please choose one

Which of the following sampling is most often used during the exploratory phase of a research project and is perhaps the best way of getting some basic information quickly and efficiently?

- Convenience Sampling
- Quota Sampling
- Snowball Sampling
- Purposive Sampling

 $\label{eq:http://books.google.com.pk/books?id=a\_Y13TJQuAC&pg=PA276&lpg=PA276&dq=Which+of+the+following+sampling+is+most+often+used+during+the+exploratory+phase+of+a+research+project+and+is+perhaps+the+best+way+of+a+research+project+and+is+best+way+of+a+research+project+and+is+best+$ 

getting+some+basic+information+quickly+and+efficiently%3F&source=bl&ots=3FqoMC6Wm&sig=fwCBgAJziEabgf\_qfcBL-EQxYzI&hl=en&ei=K-YgTYTKM4Og8QPvx7WuBQ&sa=X&oi=book\_result&ct=result&resnum=2&ved=0CBsQ6AEwAQ#v=onepage&q &f=false

**Question No: 23 (Marks: 1) - Please choose one** Which of the following is a form of Non-random sampling?

- Snowball sampling
- Convenience sampling
- Quota sampling

All of the given option

http://www.southalabama.edu/coe/bset/johnson/lectures/lec7.htm

#### **Nonrandom Sampling Techniques**

The other major type of sampling used in quantitative research is nonrandom sampling (i.e., when you do not use one of the ransom sampling techniques). There are four main types of nonrandom sampling:

- The first type of nonrandom sampling is called convenience sampling
- The second type of nonrandom sampling is called <u>quota sampling</u>
- The third type of nonrandom sampling is called <u>purposive sampling</u>
- The fourth type of nonrandom sampling is called snowball sampling

#### Question No: 24 (Marks: 1) - Please choose one

Sampling in qualitative research is similar to which type of sampling in quantitative research?

- Simple random sampling
- Systematic sampling
- Quota sampling
- Purposive sampling

It is similar to <u>purposive sampling</u>. Here is a list of the different types:

- Maximum variation sampling (purposively selecting a wide range of cases)
- Homogeneous sample selection (selecting a small and homogeneous case or set of cases for intensive study)
- Extreme-case sampling (identifying the extremes or poles of some characteristic and then selecting cases representing these extremes for examination)
- Typical-case sampling (selecting what are believed to be average cases)
- Critical-case sampling (selecting what are believed to be particularly important cases)
- Negative-case sampling (selecting cases that disconfirm the researcher's expectations and generalizations)
- Opportunistic sampling (selecting cases when the opportunity arises)
- Mixed purposeful sampling (mixing of more than one of the above sampling strategies).

## Chapter 9: Sampling in Quantitative, Qualitative, and Mixed Research

Question No: 25 (Marks: 1) - Please choose one

Which of the following relates with an abstract model of underlying relations or causal mechanism?

- Analysis
- Synthesis
- ► Results
- ► Findings

(PAGE 148)

Synthesis links specific evidence with an abstract model of underlying relations or causal mechanism.

Question No: 26 ( Marks: 1 ) - Please choose one The easiest way to describe the numerical data of one variable is;

#### Frequency distribution

- Normal distribution
- ► Poisson distribution
- Probability distribution

## (PAGE 104) THE EASIEST WAY TO DESCRIBE THE NUMERICAL DATA OF ONE VARIABLE IS WITH A FREQUENCY DISTRIBUTION.

Question No: 27 ( Marks: 1 ) - Please choose one All of the following are ways to show a table in percentages, EXCEPT;

By margins

- By row
- ► By column
- ► For the total

(PAGE 107)

THERE ARE THREE WAYS TO PERCENTAGE A TABLE: BY ROW, BY COLUMN, AND FOR THE TOTAL.

Question No: 28 (Marks: 1) - Please choose one

Which of the following is **True** for survey research?

- Survey research is a subset of experimental research.
- Survey research is often used in experimental research.
- Survey research is never used in experimental research.

Survey research is always used in experimental research.

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1490/381582.cw/index.html

#### Question No: 29 (Marks: 1) - Please choose one

When an interviewer unintentionally and mistakenly checks the wrong response on a checklist during an interview, this is an example of:

Social desirability bias

Interviewer error

- Interviewer cheating
- Sponsorship bias

http://books.google.com.pk/books?id=BJil19CAGQwC&pg=PA393&dq=Interviewer+cheating&hl=en&ei =c3YhTazRloGaOvDHzJ0J&sa=X&oi=book\_result&ct=result&resnum=4&ved=0CDIQ6AEwAw#v=onepag e&q=Interviewer%20cheating&f=false

#### Question No: 30 (Marks: 1) - Please choose one

When an interviewer asks a respondent: "Why do you shop at Liberty's department store?" this is an example of a:

- Unstructured question
- Structured question
- Disguised question
- Social desirability question

Question No: 31 (Marks: 1) - Please choose one

All of the following are stages in the selection of a sample **EXCEPT**:

- Determine sample size
- Analyze data
- Conduct fieldwork
- Select a sampling frame

[PPT]

# GENERAL ISSUES IN SAMPLING DESIGN AND SAMPLING **PROCEDURES** amer

Question No: 32 (Marks: 1) - Please choose one

- Codes are rules for data.
- Classifying
- ► Interpreting
- ► Recording

All of the given options

(PAGE 99)

#### ALTHOUGH CODES ARE GENERALLY CONSIDERED TO BE NUMERICAL SYMBOLS, THEY ARE MORE BROADLY DEFINED AS THE RULES FOR INTERPRETING, CLASSIFYING, AND RECORDING DATA.

#### Question No: 33 (Marks: 1) - Please choose one

When a competitor introduces a 25% price cut in order to blunt the effect of a test marketing study, this is an example of a:

- Maturation effect
- Testing effect
- ► History effect
- Cohort effect

Question No: 34 (Marks: 1) - Please choose one

All of the following elements of Observation is/are included in Non Reactive research EXCEPT:

- Count Behaviors
- ► Time Duration
- External Appearance
- Other Records

(PAGE 133)

## Question No: 35 (Marks: 1) - Please choose one

Which of the following element is not included for behavioral observation?

- Space
- Direction
- ► Frequency
- Accretion

#### (PAGE 126)

Question No: 36 (Marks: 1) - Please choose one

The study of documents used by writers is a method of \_\_\_\_\_\_.

- ► In-depth analysis
- Time series analysis
- Regression analysis

None of the given options

#### (page 129)

#### Question No: 37 (Marks: 1) - Please choose one

When a manufacturer studies his most successful retailer in depth in order to determine some better ideas for displaying bicycles in its retail stores, this is an example of:

- An experiment
- A test market
- A case study
- Causal research

it is an in-depth analysis of a unit which could be an individual person, a couple, a group, or an organization. It is more like a clinical analysis in retrospect; starting from the effect and tracing the reasons back in time. The researcher takes the history of the situation and makes use of any other relevant information about the case to identify the factors leading to the present situation.

Question No: 38 (Marks: 1) - Please choose one

The written set of guidelines that describes an outline of topics to be covered by a focus group moderator is called a:

- Discussion guide
- ► Concept test
- ► Case study
- ► All of the given options

Question No: 39 (Marks: 1) - Please choose one

Which of the following is a disadvantage of focus groups?

- ▶ Requires objective, sensitive, and effective moderators
- May not be useful for discussing sensitive topics
- ► High cost

All of the given options [PPT]

#### Question No: 40 (Marks: 1) - Please choose one

Which section of a report gives a summary of the contents, including the purpose, description of the participants, the results, and any conclusions being offered?

- Methodology
- Introduction
- Abstract
- Letter of transmittal

#### (PAGE 159)

#### Question No: 41 (Marks: 1) - Please choose one

Which of the following characteristic of the scientific method is defined as the confirmation or refutation of the observation through the scientific method by using sensory experience?

- Empirical
- Verifiable
- Observable
- Cumulative

#### (PAGE 3)

# Scientific method is concerned with the realities that are observable through "sensory experiences." It generates knowledge which is verifiable by experience or observation

Question No: 42 (Marks: 1) - Please choose one

Basic research can also be called as

- Practical research
- Fundamental Research
- Action research
- Assessment research

# basic research (also called academic research or pure research or fundamental research). Page#8 Question No: 43 (Marks: 1) - Please choose one

felement

Which of the following statement is true about the peer review?

- ▶ Name of the article's author is not mentioned to avoid biases
- ► It should be accepted
- It should be published in a well known journal
- ▶ Name of the author should be mentioned for the further correspondence

#### Question No: 44 (Marks: 1) - Please choose one

After making the inventory of the relevant variables the next step is to:

- ► Provide logic for the relationship
- ► Make inventory of the propositions
- Identify the relationships between the variables
- Deduce hypothesis

Question No: 45 (Marks: 1) - Please choose one

Theoretical framework helps to:

- Deduce the hypothesis
- ► Reject the hypothesis
- Test the hypothesis
- Accept the hypothesis

## From the theoretical framework, then, testable hypotheses can be developed to examine whether theory

#### formulated is valid or not

Question No: 46 (Marks: 1) - Please choose one

Which of the following is NOT a method of narrowing a topic?

- Literature review
- Specifying the context
- Talk to the experts
- Pilot testing

#### (page 33)

**Question No: 47 (Marks: 1) - Please choose one** The working definition of the variables is called:

- ► Theoretical definition
- Dictionary definition
- Operational definition
- Fundamental definition

#### Operational definition is also called a working definition

#### Question No: 48 (Marks: 1) - Please choose one

Which of the following characteristic is reflected by an interval scale?

- The distance between each participant's individual scores.
- Arithematic operations can be performed after data collection
- Classify the data into exclusive categories
- All of the given options

Spring 2009 STA630- Research Methods (Session - 2)

Marks: 80

Question No: 1 (Marks: 1) - Please choose one Which of the folowing is the basis of the Scientific Method? To test hypothesis in conditions that is conducive to its success. To formulate a research problem and disprove the hypothesis. **To formulate a research problem, test the hypothesis in carefully controlled conditions that challenge the hypothesis.** To test hypothesis and if they are disproved, they should be abandoned completely. <u>http://www.answers.com/topic/scientific-method</u> <u>http://mansci.journal.informs.org/cgi/content/abstract/12/8/C-135</u>

#### Question No: 2 (Marks: 1) - Please choose one

An inductive logic is one that:

Involves testing as explicitly defined hypothesis. Does not allow for findings to feed back into the body of knowledge. Uses quantitative methods whenever possible.

#### Allows theory to emerge out of the data.

**Rationale:** The usual application of inductive theory, however, is to allow theory to emerge from our findings. We find an interesting question, we gather data on it and we 'theorise' from our findings. It may be that these 'theories' are, in reality, simply 'interesting insights' rather than 'grand theories' but they can be valuable for all that.

#### Question No: 3 (Marks: 1) - Please choose one

Which of the following is not a concept? Leadership. Total Quality Management. Human Resource Management. Intelligence Quotient (IQ). http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch06/

**Rationale:** Concepts are the building blocks of theory, each of which represents a label given to a common element of the social world. IQ is a measure of the concept of intelligence, it is not a concept in itself.

#### Question No: 4 (Marks: 1) - Please choose one Which of the following is the definition of an independent variable? A variable that is manipulated or controlled by the experimenter. A response variable. The behavioural measure made by the experimenter.

A dependent variable that is controlled by the experimenter.

http://www.umpi.maine.edu/~stump/psysci.html

#### Question No: 5 (Marks: 1) - Please choose one

The cause variable or the one that identifies forces or conditions that act on something else is known as:

Moderating variable

## Independent variable

Categorical variable Dependent variable Page 19 The cause variable, or the one that identifies forces or conditions that act on something else, is the *independent variable*.

## Question No: 6 (Marks: 1) - Please choose one

A measure is reliable if it provides consistent \_\_\_\_\_. Hypothesis Results Procedure

Sensitivity

http://www.oppapers.com/search results.php?action=search&query=A+measure+is +reliable+if+it+provides+consistent

#### Question No: 7 (Marks: 1) - Please choose one

Which of the following statements relates to concurrent validity? The measure apparently reflects the content of the concept in question.

A criterion is employed on which cases are known to differ.

A future criterion is employed on which cases are known to differ. A measure is gauged by comparing it to measures of the same concept developed through other methods.

http://www.oup.com/uk/orc/bin/9780199284986/01student/cgs/ch06/

#### Question No: 8 (Marks: 1) - Please choose one

Research may differ along a series of dimensions. Which of the following may be applied to this statement? The type of data collected. The data-collection technique. The level of manipulation used to elicit data collection. All of the given options. ement

## **Ouestion No: 9 ( Marks: 1 ) - Please choose one**

Cross cultural studies are an example of:

Comparative design. Longitudinal design. Experimental design. Case study design.

#### http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch02/

The comparative design typically studies two contrasting cases, so that a better understanding of social phenomena can be formed. Clearly, cross-cultural studies are a good example, therefore, of comparative design in action.

#### **Ouestion No: 10 (Marks: 1) - Please choose one**

When constructing a questionnaire, there are few principles to which you should adhere. Which of the following is NOT one of those principles? Avoid using "leading" or "loaded" questions Avoid double-barreled questions Avoid ambiguity and confusion Avoid arranging questions in a sequence

Page 77 78

Question No: 11 (Marks: 1) - Please choose one

Which of the following statements is true about closed ended questions and open ended questions?

A closed ended question means that the chances of unreliable post-coding is small, whereas an open ended question means that there is a possibility of data processing error.

A closed ended question allows for the researchers terminology to be used, whereas an open ended question allows the respondant to use terms they are familiar with.

A closed ended question allows for easy processing, whereas coding an open ended question can be very time consuming.

A closed ended question has many advantages over open ended question.

http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch10/

Q#2

# Question No: 12 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using social survey research to investigate behaviour?

Respondents tend to answer by giving the most socially desirable answer.

Respondents may inadvertently omit key terms in the question.

Respondents may not give an honest reply to what they see as a threatening question.

Respondents may be unwilling to reveal information as they believe they are likely to be identified.

http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch11/ O#1

An advantage of social survey research is that the researcher can ensure that the anonymity of the respondent is maintained by administering the same questions to each individual.

# Question No: 13 (Marks: 1) - Please choose one

Which of the following represents excellent advice for conducting an interview? Listen more and talk less Don't interrupt Don't be judgmental about the interviewee's beliefs or views All of the given options

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1489/381345.cw/index.html Q#17

# Question No: 14 (Marks: 1) - Please choose one

Smaller sample sizes can be used in correlation research when;

The researcher expects no relationship between the variables.

There are only two variables to correlate.

The instruments used to measure the variables have low validity and reliability.

The instruments used to measure the variables have high validity and reliability. http://wps.prenhall.com/chet airasian edresearch 7/5/1490/381653.cw/index.html

#### Question No: 15 (Marks: 1) - Please choose one

Which of the following steps begins the analysis of qualitative data?

Reading and memoing Describing the content and participants Classifying and interpreting Data management

**REF**:

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1489/381427.cw/index.html Q#10

#### Question No: 16 (Marks: 1) - Please choose one

Which of the following could NOT be a cause of variation in high school achievement? Reading ability Parental involvement

Teacher expectations

#### College attendance

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1491/381743.cw/index.html Q#11

# Question No: 17 (Marks: 1) - Please choose one

The statistic used to determine the relationship between two variables is:

Analysis of covariance Chi square Standard deviation

#### Pearson "r"

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1491/381743.cw/index.html Q#17

Ref: The correlation between two variables reflects the degree to which the variables are related. The most common measure of correlation is the Pearson Product Moment Correlation (called Pearson's correlation for short).

#### Question No: 18 (Marks: 1) - Please choose one

A researcher studies three groups of students who vary in level of self-confidence. She finds that students with higher self-confidence are more popular among their peers. The most plausible conclusion is that:

We do not know what causes self-confidence or popularity.

Self-confidence causes popularity.

Popularity causes self-confidence.

Self-confidence and popularity are related.

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1491/381743.cw/index.html Q#7

Question No: 19 (Marks: 1) - Please choose one

Which of the following is true about validity?

A study can be internally valid but not externally valid.

A study can be externally valid but not internally valid.

A study must be both internally and externally valid.

The internal and external validity of studies are not related in any way.

http://www.docstoc.com/docs/14330216/Bias-in-Clinical-Research Slide#3

#### Question No: 20 (Marks: 1) - Please choose one

Testing most likely, negatively affect internal validity when: The information tested is attitudinal in nature

The time between pre- and posttest is short

The instrument is unreliable

The participants are very low scorers

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1491/381818.cw/index.html Q#10

#### Question No: 21 (Marks: 1) - Please choose one

Ecological validity refers to: The participants to whom results generalize The instruments used to measure the independent and dependent variables The internal validity of a study **The context to which results generalize** 

http://wps.prenhall.com/chet airasian edresearch 8/38/9869/2526465.cw/index.html Q#1

#### Question No: 22 (Marks: 1) - Please choose one

Which one is not the part of non reactive research? Physical traces Archives Observations

# Interviews

**Page 124** 

Question No: 23 (Marks: 1) - Please choose one

Which advice would you offer a novice researcher conducting his first observation? **Observe only one behavior at a time** 

Allow variables to emerge from the context

Record behaviors only after leaving the site

Develop a preconceived notion of what is going to help structure the observation <u>http://wps.prenhall.com/chet\_airasian\_edresearch\_8/38/9871/2526978.cw/index.html</u> Q#8

Rationale: Observing a single variable will help her maintain focus and develop understanding.

Question No: 24 (Marks: 1) - Please choose one

How the Procedure for data processing and analysis can be evaluated in Pilot Testing?

#### Make dummy tables

Work output of each member Length of Questionnaire Format Tools **Ref. Page No.82**:

#### 5. Procedure for data processing and analysis can be evaluated:

• Make dummy tables. See how can we tabulate the data and use the appropriate statistics for purposes of interpretations.

#### Question No: 25 (Marks: 1) - Please choose one

Which of the following is the complete group of specific population elements relevant to the research project?

Element

#### **Target Population**

Sampling Frame Sampling Unit

**Ref: Page No.88: Out** of the conceptual variations what exactly the researcher wants to focus on. This may also be called a target population. **Target population is the complete group of specific population elements relevant to the research project.** Target population may also be called *survey population* i.e. that aggregation of elements from which the survey sample is actually selected.

# Question No: 26 (Marks: 1) - Please choose one

Which of the following is the summary description of a given variable in a population? Statistic

Observation Unit

#### **Parameter**

Sampling Unit

**Ref. Page No. 89**: A **parameter** is the summary description of a given variable in a population. The mean income of all families in a city and thee age distribution of the city's population are parameters.

#### Question No: 27 (Marks: 1) - Please choose one

Which of the following is that element or set of elements considered for selection in some stage of sampling?

# Parameter

#### Sampling Unit

Observation Unit

Statistic

Ref .Page No.89: A **sampling unit** is that element or set of elements considered for selection in some stage of sampling. Sampling may be done in single stage or in multiple stages.

#### Question No: 28 (Marks: 1) - Please choose one

If you are going on the street and suddenly a TV reporter starts taking your interview regarding any issue, which of the following sampling technique is used by the TV reporter?

#### Purposive Sampling Snowball Sampling **Convenience Sampling**

Quota Sampling

**Ref. Page No.90:** Convenience sampling (also called *haphazard or accidental sampling*) refers to sampling by obtaining units or people who are most conveniently available. For example, it may be convenient and economical to sample employees in companies in a nearby area, sample from a pool of friends and neighbors. The person-on-the street interview conducted by TV programs is another example. TV interviewers go on the street with camera and microphone to talk to few people who are convenient to interview. The people walking past a TV studio in thee middle of the day do not represent everyone (homemakers, people in the rural areas).

#### Question No: 29 (Marks: 1) - Please choose one

Which of the following sampling is most often used during the exploratory phase of a research project and is perhaps the best way of getting some basic information quickly and efficiently?

#### Convenience Sampling

Quota Sampling Snowball Sampling

Purposive Sampling

**Ref .Page No.90: Convenience sampling** is most often used during the exploratory phase of a research project and is perhaps the best way of getting some basic information quickly and efficiently. Often such sample is taken to test ideas or even to gain ideas about a subject of interest.

# Question No: 30 (Marks: 1) - Please choose one

Which of the following sampling method is the best way to select a group of people for a study if you are interested in making statements about the larger population? Convenience sampling Quota sampling Purposive sampling Random sampling

http://www.southalabama.edu/coe/bset/johnson/mcq/mc7.htm Q#27

# Question No: 31 (Marks: 1) - Please choose one

In which of the following conditions, each part of the construct should be measured with at least one indicator? Unidimensionality Scale Weighing Index Construction (Page 102) Each part of the construct should be measured with at least one indicator. Of course, it is better to measure the parts of a construct with multiple indicators.

#### Question No: 32 (Marks: 1) - Please choose one

Which of the following number of variables involved in Descriptive Statistics? Bivariate Multivariate Univariate All of the given options

**Ref. Page No. 105 :** *Descriptive statistics* describe numerical data. They can be categorized by the number of variables involved: univariate, bivariate, or multivariate (for one, two, and three or more variables).

#### Question No: 33 (Marks: 1) - Please choose one

All of the following are types of personal communication, except; Letters Memos Telephone conversations Emails Page 167 Personal communication through letters, memos, telephone conversations, and the like, should be cited in the text only and not included in the reference list since these are not

retrievable data .:

#### Question No: 34 (Marks: 1) - Please choose one

Which of the following terms refers to a statistical method that can be used to statistically equate groups on a pretest or some other variable? Experimental control Differential influence Matching Analysis of covariance <u>http://www.southalabama.edu/coe/bset/johnson/mcq/mc9.htm</u> Q#7

#### Question No: 35 (Marks: 1) - Please choose one

In an experimental research study, the primary goal is to isolate and identify the effect produced by which of the following? Dependent variable Extraneous variable Independent variable Confounding variable http://www.southalabama.edu/coe/bset/johnson/mcq/mc9.htm Q#23

Question No: 36 (Marks: 1) - Please choose one

Reactive effect

# Main effect

Proactive effect http://www.southalabama.edu/coe/bset/johnson/mcg/mc9.htm O#27

# Question No: 37 (Marks: 1) - Please choose one

Which of the following is the process of marking segments of data with symbols, descriptive words or category?

# Concurring

# **Coding**

Coloring Segmenting Page 38 Coding may be the assigning of numbers or symbols before it goes to the computer. http://www.southalabama.edu/coe/bset/johnson/mcg/mc17.htm

# Question No: 38 (Marks: 1) - Please choose one

A census taker often collects data through which of the following? Standardized tests

#### **Interviews**

mer Secondary data Observations http://www.southalabama.edu/coe/bset/johnson/mcg/mc6.htm O#20

# Question No: 39 (Marks: 1) - Please choose one

Which one is NOT an advantage of personal interviewing? Interviewer influence Probing complex questions Visual aids High completion rate http://free-books-online.org/mathematics/business-mathematics-statistics/researchmethods-business-mathematics-statistics/survey-research-2/

# Question No: 40 (Marks: 1) - Please choose one

All of the following are the characteristics of scientific methods of research, EXCEPT; Cumulative Deterministic Unethical Rationalism Page 3 to 5

# Solved By Asma Saeed, Pariha Magbool

Mehvish, Anam Aslam, Ahmed, Ramiz and Kamran Haider

FINALTERM EXAMINATION

Fall 2009

# STA630- Research Methods (Session - 1)

Question No: 1 (Marks: 1) - Please choose one

Research method is applicable in all of the following fields, Except.

- ► Health care
- Business
- Government offices
- Religion

# Page #1

Educators, administrators, government officials, business leaders, human service providers, health care professionals, regularly use social research findings in their jobs.

# Question No: 2 (Marks: 1) - Please choose one

Which of the following statements is false about variables?

- ► Discrete variables allow measurement of an infinite number of fractions of units of measurement.
  - ▶ Discrete variables can only have whole number values.
  - Continuous numbers can only have whole number values.
  - ► Continuous measures do not allow for scores that fall between two number

values.

REF:

http://www.uk.sagepub.com/breakwell/downloads/mcq/mcq\_03/mcq\_03.htm

# Question No: 3 (Marks: 1) - Please choose one

A variable that is presumed to cause a change in another variable is known as:

- Discontinuous variable
- ► Dependent variable
- Independent variable
- ► Intervening variable

Page 19

# Question No: 4 (Marks: 1) - Please choose one

Which of the following statements best defines hypothesis?

- ► A quantitative study.
- A tentative prediction of the results of the research.

- ► A qualitative research design.
- ► The operational definition of the study.

http://wps.prenhall.com/chet\_airasian\_edresearch\_8/38/9865/2525651.cw/content/index. html O#24

#### Question No: 5 (Marks: 1) - Please choose one

Which of the following is the BEST hypothesis?

► Students taking formative quizzes will perform better on exams at teh end of the chapter than students not taking these quizzes.

► Taller students will have higher test scores than shorter students.

Students taught in a cooperative group setting should do better than students in a traditional class.

► Students using laptops will do well.

http://wps.prenhall.com/chet\_airasian\_edresearch\_8/38/9865/2525651.cw/content/index. html

# Q#25

#### Question No: 6 (Marks: 1) - Please choose one

Which of the following is the characteristic/s of Hypotheses in qualitative research studies?

- ► Hypotheses are very specific and stated prior to beginning the study.
- ► Hypotheses are never used.
- ► Hypotheses are often generated as the data are collected, interpreted, and analyzed.

► Hypotheses are always stated after the research study has been completed. REF:

http://www.southalabama.edu/coe/bset/johnson/mcq/mc3.htm Q#24

# Question No: 7 (Marks: 1) - Please choose one

A formal statement of the research question or "purpose of research study" generally:

► Is made prior to the literature review

► Is made after the literature review

► Will help guide the research process

► Is made before or after literature review

http://www.southalabama.edu/coe/bset/johnson/mcq/mc3.htm Q#18

#### Question No: 8 (Marks: 1) - Please choose one

Which of the following refers to "A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program is which type of review"?

Integrative review

Self-study review

Historical review

# Page 26

**1.** *Self-study reviews increase the reader's confidence.* A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program. In addition to giving others confidence in a reviewer's command of field, it has the side benefit of building the reviewer's self confidence.

# Question No: 9 (Marks: 1) - Please choose one

Quantitative research has been criticised because:

- ► The reliance on instruments and procedures makes it high in ecological validity.
- ► The measurement process suggests a spurious and artificial sense of accuracy.
- ► It underestimates the similarities between objects in the natural and social worlds.
- ► It has no validity.

http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch06/ Q#8

# Question No: 10 (Marks: 1) - Please choose one

Internal consistency estimates of reliability such as the KR-20 or Cronbach's alpha are used more frequently than other estimates such as test-retest or parallel forms because internal consistency estimates;

- ► Are easily calculated.
- Require only one administration of a test.
- ► Are more accurate than all other types of estimates.
- ► Are usually higher.

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1489/381232.cw/index.html Q#5

# Question No: 11 (Marks: 1) - Please choose one

Which of the following functions is performed by the Nominal scale?

- ► Categorize
- ► Distance
- ► Order
- ► Unique origin

Page 53

# Question No: 12 (Marks: 1) - Please choose one

Categorical measures are forms of measurement classified as;

► Measures that reflect quantitative differences.

Measures that reflect qualitative differences.

► Measures that do not require mutual exclusivity or exhaustiveness when devising a measuring system.

Rationale measures.

http://www.uk.sagepub.com/breakwell/downloads/mcq/mcq\_03/mcq\_03.htm Q#2

#### Question No: 13 (Marks: 1) - Please choose one

Which of the following statements relates to concurrent validity?

- ► The measure apparently reflects the content of the concept in question.
- ► A criterion is employed on which cases are known to differ.
- ► A future criterion is employed on which cases are known to differ.

► A measure is gauged by comparing it to measures of the same concept developed through other methods.

http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch06/ Q#4

#### Question No: 14 (Marks: 1) - Please choose one

If a measure is consistent over multiple occasions, it has:

- ► Inter-rater reliability
- ► Construct validity
- Internal validity
- Test-retest reliability

#### Page#57

#### Test-Retest Reliability

Used to assess the consistency of a measure from one time to another.

Test-Retest Reliability

Procedure

Measure the same individuals at two points in time and then calculate the correlation coefficient between the first and second test scores

To test the reliability of an intelligence test, the test is given to a group

of people on one day and again a week later

#### Question No: 15 (Marks: 1) - Please choose one

The validity of a measure refers to which of the following?

- Consistency of the measurement
- Particular type of construct specification
- Comprehensiveness with which it measures the construct
- Accuracy with which it measures the construct

http://books.google.com/books?id=osJ83m1x1cUC&pg=PA138&dq=validity+of+a +measure+refers&hl=en&ei=KH40Td3bFdDO4gbpzMzGDg&sa=X&oi=book resul t&ct=result&resnum=5&ved=0CDcO6AEwBA#v=onepage&q=validity%20of%20a %20measure%20refers&f=false

#### Question No: 16 (Marks: 1) - Please choose one

In which of the following types of interview, questions are already prepared?

- ► Telephonic interview
- ► Personal interview
- ► Unstructured interview
- Structured interview

Page 83

Information is obtained in a structured conversation in which the interviewer asks prearranged questions and records answers, and the respondent answers.

#### Question No: 17 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using survey research to investigate behaviour?

- ▶ Respondents tend to answer by giving the most socially desirable answer.
- ▶ Respondents may inadvertently omit key terms in the question.

► Respondents may not give an honest reply to what they see as a threatening question.

Respondents may be unwilling to reveal information as they believe they are likely to be identified.

http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch11/ Q#1

#### Question No: 18 (Marks: 1) - Please choose one

Which of the following statements might assist response rates?

► Please photocopy the questionnaire five times and pass on to your work colleagues.

▶ Please make sure that the questionnaire is completed with a fountain pen.

► Please read the attached journal article on the ontological foundations of positivism prior to completing the questionnaire.

Please put the completed questionnaire in the enclosed stamped addressed envelope and place in the mail out tray.

http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch09/ Q#3

#### Question No: 19 (Marks: 1) - Please choose one

After you locate a source, you should write down all details of the reference, except;

- ► Volumes
- ► Full names of the authors
- ► Titles
- Price

Page 29

After you locate a source, you should write down all details of the reference (full names of the authors, titles, volumes, issue, pages)

#### Question No: 20 (Marks: 1) - Please choose one

The small scale trial run of a particular item is called \_\_\_\_\_\_.

- ► Test Run
- Pilot test
- ► Post hoc test
- ► T test

# Page#80

Pilot testing also called pre-testing means small scale trial run of a particular component; here we are referring to pilot testing of the questionnaire.

Question No: 21 (Marks: 1) - Please choose one

Which of the following provides insight into the complexity of using interviews?

▶ Potential influence of gender or cultural differences between interviewer and interviewee

- ► The accuracy of the interviewee's responses
- ► The different semantic meanings of the language being used
- Accuracy, influences and language used

http://wps.prenhall.com/chet airasian edresearch 7/5/1489/381400.cw/index.html

# Question No: 22 (Marks: 1) - Please choose one

Ms. K sampled the brightest students in the fifth grade at her school. She observed them in their classes at school and as they interacted with teachers and students when on campus. Her observation can be characterized as which of the following?

- ► Historical research
- ► Typical case sampling
- ► Totally structured
- Naturalistic

http://wps.prenhall.com/chet airasian edresearch 7/5/1489/381347.cw/index.html O#6

# Question No: 23 (Marks: 1) - Please choose one

Which of the following could indicate a statistically significant correlation?

- ▶ 0.12
- ▶ 0.34
- ► -0.45
- ▶ Either .34 or -.45

http://wps.prenhall.com/chet airasian edresearch 7/5/1490/381653.cw/index.html O#8

# Question No: 24 (Marks: 1) - Please choose one

Which of the following involves getting an initial sense of the data by considering field notes, transcripts, or observer comments?

- ► Data management
- Reading and memoing
- ► Describing the content and participants
- Classifying and interpreting

http://wps.prenhall.com/chet airasian edresearch 7/5/1490/381473.cw/index.html O#6

# Question No: 25 (Marks: 1) - Please choose one

Which of the following is NOT a strategy that can guide data interpretation?

▶ Pay attention to your topic or research focus as it will help guide your selection of important parts of your data.

• Examine categories with large amounts of data as they are likely identifying important concepts.

• Examine existing studies related to your topic to identify potential interpretative frameworks

Pay attention to your preconceived notions of the meaning of the data as it reflects a "grounded" perspective.

#### Question No: 26 (Marks: 1) - Please choose one

A researcher believes that the effects of a treatment will be different for males and females. Which one is the best method to test this possible interaction?

- ► Single-subject design
- Factorial design
- ► Time-series design
- ► Quasi-experimental design

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1491/381820.cw/index.html Q#17

#### Question No: 27 (Marks: 1) - Please choose one

The best single-subject design to use, when it would be unethical to discontinue treatment indefinitely, would likely be:

- ► A-B-A-B
- ► A-B
- ► A-B-A
- ► Quasi-experimental

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1491/381820.cw/index.html Q#19

#### Question No: 28 (Marks: 1) - Please choose one

Which term technically describes a situation in which an observer's work in a first-grade classroom disrupts the normal routines due to the curiosity of the students?

- Observer effect
- ► Participant effect
- ► Nonparticipant bias
- Observer bias

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1489/381347.cw/index.html Q#19

#### Question No: 29 (Marks: 1) - Please choose one

If the researcher promises anonymity to research participants, what can he not use?

- ► Questionnaires.
- Participant observation
- ► Self-report research
- Cross-sectional research

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1490/381582.cw/index.html Q#18

#### Question No: 30 (Marks: 1) - Please choose one

Which component of a research report contains information about the topic studied, literature review, hypotheses, participants, instruments, procedures, results, and discussion?

- Preliminary pages
- Main body
- ► Method

Discussion

http://wps.prenhall.com/chet\_airasian\_edresearch\_8/38/9872/2527359.cw/index.html Q#3

# Question No: 31 (Marks: 1) - Please choose one

Which of the following represents the correct order for five main sections of a dissertation?

- ► Conclusion, Introduction, Methods, Literature Review, Results.
- ▶ Methods, Results, Conclusion, Literature Review, Introduction.
- ► Literature Review, Results, Methods, Introduction, Conclusion.
- ▶ Introduction, Literature Review, Methods, Results, Conclusion.

http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch03/

Q#10

# Question No: 32 (Marks: 1) - Please choose one

A focus group session is ideally for;

- $\blacktriangleright$  1 hour
- 1 and half hour
- ► 2 hours
- ► More than 2 hours

# Page#155

For duration, a focus group session typically lasts up to an hour and a half. Question No: 33 (Marks: 1) - Please choose one

Which of the following refers to the partials replicate or reproduce the same relationship

that existed in the bivariate table before considering the control variable?

# Replication pattern

- Specification pattern
- ► Suppressor variable pattern
- ► Negative linear relationship

# Page#110

*The replication pattern* is the easiest to understand. It is when the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable. It means that the control variable has no effect.

# Question No: 34 (Marks: 1) - Please choose one

Which of the following is not a way to manipulate an independent variable?

Random technique

- Amount technique
- ► Type technique
- ► Presence technique

http://www.southalabama.edu/coe/bset/johnson/mcq/mc9.htm

Q#8

Question No: 35 (Marks: 1) - Please choose one

Which of the following could be used for randomly assigning participants to groups in an experimental study?

- ► Split-half
- ► Even versus Odd numbers
- ▶ Use a list of random numbers or a computer randomization program
- ► Let the researcher decide which group will be the best

http://www.southalabama.edu/coe/bset/johnson/mcg/mc9.htm

# O#15

# Question No: 36 (Marks: 1) - Please choose one

Which of the following designs does an excellent job of controlling for rival hypotheses that threaten the internal validity of an experiment?

- ► Posttest-only design with nonequivalent groups
- ► Posttest-only control-group design

# Pretest-posttest control-group design

Posttest-only design without nonequivalent groups

http://www.southalabama.edu/coe/bset/johnson/mcg/mc9.htm

O#18

# Question No: 37 (Marks: 1) - Please choose one

In an experimental research study, the primary goal is to isolate and identify the effect produced by which of the following? lemer

- ► Dependent variable
- ► Extraneous variable
- ► Independent variable
- ► Confounding variable

http://www.southalabama.edu/coe/bset/johnson/mcg/mc9.htm

O#23

Handouts page#112

# Question No: 38 (Marks: 1) - Please choose one

What is the particular advantage of secondary analysis to business students?

- ► It is less challenging intellectually
- ► It guarantees positive results
- ▶ It is less expensive and less time consuming than primary analysis
- ▶ It enables students to gain experience of the workplace

http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch13/

O#2

# Question No: 39 (Marks: 1) - Please choose one

Why do many data sets used for secondary analysis, contain high quality data?

- ► Because the data is presented attractively
- Because rigorous sampling procedures are commonly used
- ▶ Because the data sets focus on specific regions and issues
- Because the data is kept confidential

http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch13/

Q#3

#### Question No: 40 (Marks: 1) - Please choose one

Which of the following types of analysis can be done using secondary analysis?

- ► The analysis of specific subgroups
- ► Longitudinal analysis
- ► Cross-cultural analysis
- All of the given options

http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch13/

#### Q#4

#### Question No: 41 (Marks: 1) - Please choose one

When an interviewer unintentionally and mistakenly checks the wrong response on a checklist during an interview, this is an example of:

- Social desirability bias
- Interviewer error
- ► Interviewer cheating
- Sponsorship bias

http://books.google.com.pk/books?id=BJil19CAGQwC&pg=PA393&dq=Interviewer+ch eating&hl=en&ei=c3YhTazRIoGaOvDHzJ0J&sa=X&oi=book\_result&ct=result&resnu m=4&ved=0CDIQ6AEwAw#v=onepage&q=Interviewer%20cheating&f=false

#### Question No: 42 (Marks: 1) - Please choose one

When an interviewer asks the respondent to state which of six salary categories represents his gross income the previous year, this is an example of a:

- Social desirability question
- ► Disguised question
- ► Structured question
- ► Unstructured question

#### Question No: 43 (Marks: 1) - Please choose one

"Can you tell me more about what you mean by that?" is an example of:

- ► A mall intercept
- ► A probe
- ► A self-administered questionnaire
- ► All of the given options

#### Page 84

#### Question No: 44 (Marks: 1) - Please choose one

Interviews with respondents that take place in shopping malls are called:

- ► Interviewer influence
- ► Mixed-mode surveys
- ► Protesting
- Mall intercept interviews

#### Page 66

Personal interviews conducted in shopping malls are referred to as mall intercept interviews.

# Question No: 45 (Marks: 1) - Please choose one

A questionnaire that collects information that is valid is said to be:

- ► Reliable
- ► Relevant
- ► Balanced
- Accurate

# Question No: 46 (Marks: 1) - Please choose one

All of the following are guidelines that help prevent the most common mistakes in designing questions **EXCEPT**:

- ► Avoid complexity
- Avoid personal questions
- Avoid leading questions
- Avoid double-barreled questions

#### Page #78

# Question No: 47 (Marks: 1) - Please choose one

When a respondent in a personal interview is asked questions about shopping at a specific department store in the shopping mall, and then is asked general questions about shopping at that mall, what type of mistake has been made in questionnaire design?

emer

# Double-barreled effect

- ► Filter effect
- ► Loaded effect
- Order bias

Page 78

# Question No: 48 (Marks: 1) - Please choose one

Which of the following is a non probability sampling technique in which an experienced individual selects the sample based on his or her judgment about some appropriate characteristics required of the sample member?

- ► Subjective sample
- ► Stratified sample
- Judgment sample
- ► Cluster sample

Judgment Sampling

- Also called purposive sampling
- An experienced individual selects the

sample based on his or her judgment about some appropriate characteristics required of the sample member

http://cvlearn.com/Documents/Sample%20Designs%20and%20Sampling%20Procedures. pdf

#### Question No: 49 (Marks: 1) - Please choose one

In which type of sampling is a sub sample drawn using simple random sampling within each stratum?

- ► Cluster sampling
- Stratified sampling
- ► Systematic sampling
- ► Convenience sampling

#### Page#94

Hence in stratified random sampling a sub sample is drawn utilizing simple random sampling within each stratum. (Randomization is not done for quota sampling).

#### Question No: 50 (Marks: 1) - Please choose one

When a field interviewer records an impossible answer (e.g. birth date: 1850), this means that the data need to be: dfelement

- ► Coded
- ► Deleted
- Edited
- None of the given options

# Page#97

#### Editing

Occasionally, a fieldworker makes a mistake and records an improbable answer (e.g., birth year: 1843) or interviews an ineligible respondent (e.g., someone too young to qualify).

#### Question No: 51 (Marks: 1) - Please choose one

All of the following are software packages that can be used for data analysis **EXCEPT**:

 $\blacktriangleright$  SPSS  $\blacktriangleright$  SAS ► Excel ► Word http://www.stattutorials.com/

#### Question No: 52 (Marks: 1) - Please choose one

When initial subjects are selected randomly and additional subjects are obtained from recommendations of names from the initial subjects, this sampling technique is called:

► Judgment sample

Snowball

Convenience sample

► Cluster sample

Page#91

And also here is link

http://wiki.answers.com/Q/You\_are\_in\_charge\_of\_promoting\_a\_new\_flavor\_of\_toothpas te\_yet\_to\_be\_produced\_in\_a\_toothpaste\_manufacturing\_unit\_Which\_sampling\_techniqu es\_will\_you\_use\_to\_get\_the\_required\_data\_from\_a\_population

Snowball sampling relies on referrals from initial subjects to generate additional subjects. While this technique can dramatically lower search costs, it comes at the expense of introducing bias because the technique itself reduces the likelihood that the sample will represent a good cross section from the population.

# Question No: 53 (Marks: 1) - Please choose one

When a local television station sends a crew to interview joggers in the Iqbal park on a beautiful spring day, this represents what type of sample?

- ► Cluster sample
- Convenience sample
- ► Multistage area sample
- ► Systematic sample

Page#90

# Question No: 54 (Marks: 1) - Please choose one

In a typical line graph, the \_\_\_\_\_ variable is shown on the vertical y-axis and the \_\_\_\_\_ variable is shown on the horizontal x-axis.

emer

# Dependent; independent

- ► Ratio; nominal
- ► Independent; dependent
- ► Primary; secondary

http://books.google.com.pk/books?id=ifLei-

KbC\_cC&pg=PA77&lpg=PA77&dq=In+a+typical+line+graph+independent+variable+is +shown+on+the+vertical+y-

axis&source=bl&ots=nCL5LJbF3b&sig=2HUGkg9kdwDpKbOXK6uNi-

<u>Miymk&hl=en&ei=WBEmTcLZM4\_zsgbbna3WAg&sa=X&oi=book\_result&ct=result&</u> <u>resnum=7&ved=0CEIQ6AEwBg#v=onepage&q=Line%20graphs&f=false</u>

# Question No: 55 (Marks: 1) - Please choose one

Which of the following means that there is an alternative explanation beyond the experimental variables for any observed differences in the dependent variables?

#### Repeated measures

#### Page #112

#### Question No: 56 (Marks: 1) - Please choose one

Which experimental design has the following symbols: O1 X O2?

# Solomon four-group design

- ► Static group design
- ► One-group pretest-posttest design
- ► None of the given options

Page#118

# Question No: 57 (Marks: 1) - Please choose one

Which of the following is critical when conducting experimental research because it allows researchers to return subjects to normal?

- ► Manipulation check
- ► Cohort analysis
- ► Debriefing
- ► Deception

#### Question No: 58 (Marks: 1) - Please choose one

All of the following elements of Observation is/are included in Non Reactive research Satele EXCEPT:

- Count Behaviors
- ► Time Duration
- External Appearance
- Other Records

Page#124

# Question No: 59 (Marks: 1) - Please choose one

Which of the following is an advantage of focus group interviews?

- Provide multiple perspectives
- ► Low degree of scrutiny
- ► Inexpensive
- ► Easy to use for sensitive topics

#### Page#156

The primary advantage of focus groups is its ability to quickly and inexpensively grasp the core issues of the topic.

http://www.webcredible.co.uk/user-friendly-resources/web-usability/focus-groups.shtml

# Question No: 60 (Marks: 1) - Please choose one

Which of the following is the ideal size of a focus group?

- ► 1-2 participants
- ► 3-5 participants

# 6-12 participants

12-20 participants

Page#152

A focus group discussion is a group discussion of 6-12 persons guided by a facilitator, during which group members talk freely and spontaneously about a certain topic.

#### Question No: 61 (Marks: 1) - Please choose one

The written set of guidelines that describes an outline of topics to be covered by a focus group moderator is called a:

# Discussion guide

- Concept test
- ► Case study
- ► All of the given options

http://www.answers.com/topic/focus-group

A focus group is a marketing research tool in which a small group of people (typically eight to ten individuals) engages in a roundtable discussion of selected topics of interest in an informal setting. The focus group discussion is typically directed by a moderator who guides the discussion in order to obtain the group's opinions about or reactions to specific products or marketing-oriented issues, known as test concepts.

#### Question No: 62 (Marks: 1) - Please choose one

In a prepared report, which of the following comes first?

- ► Title fly page
- Executive summary
- ► Table of contents
- ► Title page

Page#159

# Question No: 63 (Marks: 1) - Please choose one

In a prepared report, what should follow the discussion section?

- ► Tables
- ► Title page
- ► References
- ► Abstract

Page#160

#### Question No: 64 (Marks: 1) - Please choose one

Constructing a detailed moderator's outline for use during the focus group interviews involves extensive discussions among the \_\_\_\_\_, \_\_\_\_, and \_\_\_\_\_.

- Researcher; moderator; and respondents
- Researcher; client; moderator
- Researcher; client; respondent
- Client; respondent; moderator

http://books.google.com.pk/books?id=TKb8iORscegC&pg=PA148&lpg=PA148&dq=the +focus+group+interviews+involves+extensive+discussions+among+the+Researcher%3B +client%3B+moderator&source=bl&ots=xSwWEZTa6W&sig=Ur9N5kXYtI6unyNRbS5 m3OFvTx4&hl=en&ei=8vAyTaeGKt3NjAeipeSoCg&sa=X&oi=book\_result&ct=result &resnum=1&ved=0CBQQ6AEwAA#v=onepage&q=the%20focus%20group%20intervie ws%20involves%20extensive%20discussions%20among%20the%20Researcher%3B%2 Oclient%3B%20moderator&f=false

# Question No: 1 (Marks: 1) - Please choose one

An inductive logic is one that:

- ► Involves testing as explicitly defined hypothesis.
- ▶ Does not allow for findings to feed back into the body of knowledge.
- ► Uses quantitative methods whenever possible.
- Allows theory to emerge out of the data.

# Question No: 2 (Marks: 1) - Please choose one

Which of the following research questions is BEST answered using action research?

- ► How can I improve the interaction of students of different ethnicity in my class?
  - ▶ What factors influence student interaction in multiethnic classes?
- ► Is there a difference between male and female acceptance of others in multiethnic classes?
- ► How do students from Asian countries adjust to classroom practices in U.S. schools?

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1490/381508.cw/index.html

# Question No: 3 (Marks: 1) - Please choose one

Which of the following is characteristic of action research?

- ► Variables are tightly controlled.
- ► Results are generalizable.
- ► Results demonstrate cause-and-effect relationships.
- Data are usually qualitative.

http://wps.prenhall.com/chet airasian edresearch 7/5/1490/381508.cw/index.html

# Question No: 4 (Marks: 1)http://vustudents.ning.com - Please choose one

Research may differ along a series of dimensions. Which of the following may be applied to this statement?

- ► The level of manipulation used to elicit data collection.
- ► The data-collection technique.
- ► The type of data collected.
- **Type, technique and manipulation of data collection**.

Question No: 5 (Marks: 1) - Please choose one

Which of the following is NOT a drawback to free response items?

- ▶ Results from free response items take longer to analyze.
- ► Many participants tend not to answer free response items.

► Free response items allow participants to add information that was not directly requested.

Many participants tend to be less truthful in free response items.

http://wps.prenhall.com/chet airasian edresearch 7/5/1490/381582.cw/index.html

#### Question No: 6 (Marks: 1) - Please choose one

After you locate a source, you should write down all details of the reference, except;

- ► Volumes
- ► Full names of the authors
- ► Titles
- Price

pg29

#### What to Record

After you locate a source, you should write down all details of the reference (full names of the authors, titles, volumes, issue, pages)

#### Question No: 7 (Marks: 1) - Please choose one

Which of the following is an example of a question about normative standards and values?

- ► How many workers are employed at this plant?
- ▶ What is your attitude towards the management at this plant?
- **Do you always cast your vote in trade union elections?**
- ► Are you aware of the main features of the European Union Directive for

informing and consulting employees?

http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch10/

# Question No: 8 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using social survey research to investigate behaviour?

- ▶ Respondents tend to answer by giving the most socially desirable answer.
- ▶ Respondents may inadvertently omit key terms in the question.

► Respondents may not give an honest reply to what they see as a threatening question.

► Respondents may be unwilling to reveal information as they believe they are likely to be identified.

# http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch11/

# Question No: 9 (Marks: 1) - Please choose one

Which of the following is an example of a dilemma that might face feminist business researchers conducting qualitative interviews with women?

- ► What role to adopt while interviewing male managers?
- ► How many female employees should be interviewed for a representative sample?

► How to overcome the issue of false consciousness?

► What data to use while publishing findings?

http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch18/

Q#9

# Question No: 10 (Marks: 1) - Please choose one

Which of the following is NOT characteristic of qualitative data?

- Rich descriptions
- ► Concise
- ► Voluminous
- ► Unorganized

http://wps.prenhall.com/chet\_airasian\_edresearch\_8/38/9871/2527149.cw/content/index. html

# Question No: 11 (Marks: 1) - Please choose one

Why is describing the context equally, as important aspect of qualitative data analysis as is describing the participants?

- Descriptions of context are more objective than descriptions of participants.
- Descriptions of context are based on facts, not perceptions.
- Participants' behavior cannot be separated from the context in which it

# occurs.

▶ Participants are the context.

http://wps.prenhall.com/chet\_airasian\_edresearch\_8/38/9871/2527206.cw/index.html Q#4

# Question No: 12 (Marks: 1) - Please choose one

Which one is not the part of non reactive research?

- Physical traces
- Archives
- ► Observations
- Interviews

# Page#124

# Question No: 13 (Marks: 1) - Please choose one

The information gained by someone other than researcher conducting the study is called

- Primary data
- ► Reliable data
- ► Valid data
- Secondary data

# page#131

Secondary data refer to information gathered by someone other than the researcher conducting the present study.

# Question No: 14 (Marks: 1) - Please choose one

Which of the following is **not** an example of historical comparative research?

Social Forms

- ► Economic Forms
- ► Civil Wars

Turnover

#### Page#143

#### Question No: 15 (Marks: 1) - Please choose one

Which of the following would you recommend to a graduate student to ensure the quality of his research report?

- ▶ Write a detailed explanation of the methods used to investigate the problem.
- Explicitly state underlying assumptions related to the topic.

► Acknowledge the limitations of generalizability while assisting the reader in understanding the transferability of the findings.

# Detailed method, assumptions and limitation.

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1490/381491.cw/index.html Q#2

#### Question No: 16 (Marks: 1) - Please choose one

In which of the following Tests, we usually go for personal interviewing to test the questionnaire?

- Pilot Test
- ► Post Hoc Test
- ► T- Test

Page#80

# Question No: 17 (Marks: 1) - Please choose one

In which of the following Tests, we should come to know, does a questionnaire look like an integrated unit?

dfelement

- ► Test Run
- ▶ Pilot Test
- ► Post Hoc Test
- ► T- Test

# Question No: 18 (Marks: 1) - Please choose one

Which of the following is that element or set of elements considered for selection in some stage of sampling?

- ► Parameter
- Sampling Unit
- Observation Unit
- ► Statistic

page#89

A sampling unit is that element or set of elements considered for selection in some stage of sampling.

#### Question No: 19 (Marks: 1) - Please choose one

If you are going on the street and suddenly a TV reporter starts taking your interview regarding any issue, which of the following sampling technique is used by the TV reporter?

- ► Purposive Sampling
- Snowball Sampling
- Convenience Sampling
- ► Quota Sampling

Page#90

# Question No: 20 (Marks: 1) - Please choose one

Sampling in qualitative research is similar to which type of sampling in quantitative research?

- ► Simple random sampling
- ► Systematic sampling
- ► Quota sampling
- Purposive sampling

Sampling in qualitative research is similar to which type of sampling in quantitative research?

It is similar to purposive sampling.

http://www.google.com.pk/#hl=en&biw=800&bih=411&q=Sampling+in+qualitative +research+is+similar+to+which+type+of+sampling+in+quantitative+research%3F+ +++++++%E2%96%BA+Simple+random+sampling++++++%E2%96%BA+Sy stematic+sampling++++++%E2%96%BA+Quota+sampling++++++%E2%96 %BA+Purposive+sampling&aq=f&aqi=&aql=&oq=&gs rfai=&fp=c4ef4ebbe35c98 <u>d0</u>

See CH#9 in the above link

# Question No: 21 (Marks: 1) - Please choose one

Which of the following is NOT a type of Non-random sampling?

- ► Cluster sampling
- ► Convenience sampling
- ► Quota sampling
- Purposive sampling

Page#90 92

#### Question No: 22 (Marks: 1) - Please choose one

Historical-Comparative researchers sometimes use;

Time-series dataPrimary data

- Secondary data
- Analyzed data

#### (PAGE 151)

#### Question No: 23 (Marks: 1) - Please choose one

Which of the following refers to the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable?

#### Replication pattern

- ► Specification pattern
- ► Suppressor variable pattern
- Negative linear relationship

#### (page 110)

The replication pattern is the easiest to understand. It is when the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable.

Question No: 24 (Marks: 1) - Please choose one

As a researcher you need Not to;

- ► Master the literature
- ► Take numerous detailed notes
- ► Create a bibliography list
- Learn your findings

#### (page 147)

As the researcher masters the literature and takes numerous detailed notes, he or she completes many specific tasks: creating a bibliography list (on cards or on computer) with complete citations, taking notes that are neither too skimpy nor too extensive, leaving margins on note cards for adding themes later on, taking all note in the same format, and developing a file on themes or working hypothesis.

A researcher adjusts initial concepts, questions, or focus on the basis of what he or she discovers in the evidence. New issues and questions arise as he or she reads and considers a range of research reports at different levels of analysis (e.g., general context and detailed narratives on specific topic), and multiple studies on a topic, crossing topic boundaries.

Question No: 25 (Marks: 1) - Please choose one

Which of the following relates with an abstract model of underlying relations or causal mechanism?

- ► Analysis
- **Synthesis**
- ► Results
- ► Findings

Synthesis links specific evidence with an abstract model of underlying relations or causal mechanism

#### Question No: 26 (Marks: 1) - Please choose one

Which of the following control techniques available to the researcher, controls both known and unknown variables?

- ▶ Building the extraneous variable into the design
- Matching
- Random assignment
- Analysis of covariance

#### Question No: 27 (Marks: 1) http://vustudents.ning.com - Please choose one

Which of the following is more operational with the help of coding system?

- External Appearance
- Count Behaviors
- Content analysis
- Time Duration

http://free-books-online.org/mathematics/business-mathematics-statistics/researchmethods-business-mathematics-statistics/non-reactive-research-2/

# Question No: 28 (Marks: 1) - Please choose one

What is the particular advantage of secondary analysis to business students?

- ► It is less challenging intellectually
- ► It guarantees positive results
- ▶ It is less expensive and less time consuming than primary analysis

► It enables students to gain experience of the workplace http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch13/

# Question No: 29 (Marks: 1) - Please choose one

Which of the following similarity is found in Qualitative research and Survey research?

- Examine topics primarily from the participants' perspectives.
- ► They are guided by predetermined variables to study.
- ▶ They are descriptive research methods.

► Have large sample sizes.

http://wps.prenhall.com/chet\_airasian\_edresearch\_7/5/1490/381582.cw/index.html

# Question No: 30 (Marks: 1) - Please choose one

A single element or group of elements that is eligible for selection via the sampling process is called a:

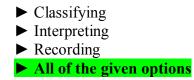

- ► Sampling panel
- ► Sampling unit
- ► Sampling error
- ► Sampling quota

Sample unit (subject) – single element selected in the sample; could be a group ( could be a two stage process)

# LECTURE 10 - SAMPLING FUNDAMENTALS

Question No: 31 (Marks: 1) - Please choose one

Codes are rules for \_\_\_\_\_ data.

#### Question No: 32 (Marks: 1) - Please choose one

Which of the following contain the captions for the rows of a table?

Boxheads

► Footnotes

- ► Source notes
- ► None of the given options

 $\label{eq:http://webcache.googleusercontent.com/search?q=cache:0yypXFrjn8sJ:nces.ed.gov/statprog/styleguide/excel/appendixH.xls+Which+of+the+following+contain+the+captions+for+the+rows+of+a+table%3F+%E2%96%BA+Boxheads+%E2%96%BA+Footnotes+%E2%96%BA+Source+notes+%E2%96%BA+None+of+the+given+options&cd=8&hl=en&ct=clnk&gl=pk$ 

# Question No: 33 (Marks: 1) - Please choose one The experimental design that uses one-group, a treatment, and a posttest is called

#### One-shot case study design

- Pretest posttest control group design
- Solomon four-group design
- One-group pretest posttest design

#### Page#117

**One-shot Case Study Design: Also called the one-group posttest-only design, the one-shot case study design has only one group, a treatment, and a posttest. Ouestion No: 34 (Marks: 1) - Please choose one** 

When a researcher tries to say that the results of a test market in Karachi will hold in a national rollout of the new product, this researcher is concerned with:

- ► Internal validity
- ► The repeated measures effect
- ► Constant error
- ► External validity

#### Question No: 35 (Marks: 1) - Please choose one

Obtaining secondary data is typically \_\_\_\_\_ and \_\_\_\_\_ expensive than obtaining primary data.

- ► Faster; more
- ► Slower; more
- ► Faster; less

#### ► Slower; less

Secondary data is readily available at cheap rates and is usually quite inexpensive.

http://wiki.answers.com/Q/What is the advantages of secondary market researc h

#### Question No: 36 (Marks: 1) - Please choose one

Which of the following is a disadvantage of secondary data?

- ► User has no control over their reliability and validity
- ► Inability to convert the data
- ► Typically require additional access to research respondents
- All of the given options

http://books.google.com.pk/books?id=bwlAZHmjABcC&pg=PA31&dq=which+of+the+ following+is+a+disadvantage+of+secondary+data%3F&hl=en&ei=ikknTaL0HsLvsgaw\_ LzUAg&sa=X&oi=book\_result&ct=result&resnum=7&sqi=2&ved=0CEkQ6AEwBg#v= onepage&q&f=false

felemer

#### Question No: 37 (Marks: 1) - Please choose one

The study of documents used by writers is a method of \_\_\_\_\_

- ► In-depth analysis
- Time series analysis
- Regression analysis
- None of the given options

#### Question No: 38 (Marks: 1) - Please choose one

Historical-Comparative research focuses on:

- Its broad historical processes
- ► Comparing forms
- ► Tracing the development of social forms

#### All of the given options
