Advanced Paper

2019

• A computer cannot function with out ? **Operating System**

• Full form of Wi-Fi ?

**Wireless Fidelity** (Intro = <sup>sep</sup>1998, John O. Sullivan) (Australia Electrical E)

• A computer virus is ?

**A computer program**

• Following files have an "mpg" extension ? **Video**

• CD is optical disk format that is used to hold ?

(1) **Pre-record text** (2) **Graphics** (3) **Sound**

• Short cut for reverse last action?

**Ctrl + Z**

• The major language for "WWW" is **HTML** (Hyper text markup language)

Developed by "Tim Berner Lee" 1990.

• Columns and Rows calculating ' Spreadsheet Software. (MS-Excel)

• A device which encodes character by depression of key known as?

**key board.**

• The unit controls all parts and Component of Computer is.

**CPU** (Central processing unit)

- A term used for process of transferring documents and graphics from your computer to a server on Internet?

UPloading

- A webpage has a unique address? URL
- which is agreed upon format for transmitting data between two devices? Protocol.
- Short <sup>key</sup> cut for select paragraph in MS-Word? Cntrl + X
- After process show data? Output
- Microsoft window is an operating system.
- In computer device used to show information? Output device
- Google(+) is another alternative to which of site

Facebook (2004, Mark Zuckerberg, USA)

- which is an example of micro blogging? Twitter (21-MAR-2006, California USA)

← founded (Jack Dorsey, Biz Stone)  
(Noah Glass)

- In MS-word not type of Page margin? **Centre**. Include type (Top, Left, Right)
- In MS-word Portrait and Landscape are **Page Orientation**
- In Power point the selected design template can be applied:
  - (1) current slide only
  - (2) on the slide
  - (3) to all new presentation you create
- LED stand for? **Light Emmiting Diode**
- Closet meaning word Monitor? **Observe**
- Linux is an **Operating System**
- In field of telecommunication LTE stand for? **Long term Evolution**
- Trackball is an? **Input device** (like mouse)
- which data is converted from a readable form to an encoded version? **Encryption**
- The oldest search engine among of **Yahoo** (18, Jan, 1995) "WWW" rename "Yahoo" <sup>S Jerry</sup> <sub>Das</sub>
- A hybrid computer? **Resemble Digital + Analog**
- A computer application program display data arrange row & Coloum? **Spreadsheet**
- which is not a powerpoint view? **Presentation view.**
- max. font size can apply one character MS-word? **1638**

- GUI stand? **Graphical user Interface**
- To copy a picture of screen to clipboard use? **Print, Screen key**
- what used to transmit digital data over telephone lines. **Modem**
- CRT (cathod ray tube) is technology used in a? **Moniter**
- In MS-excel we cannot edit content of a cell by? **Pressing Alt key**
- what is Terabyte? **Roughly trillion byte**
- RAM stand for?

**Random Access memmory (also called Volatile)**

- Powerpoint. Presentation widely used?
  - (1) **Note outline teacher**
  - (2) **Project presentation**
  - (3) **Communication planning**

- A common name Softwear error? **Bugs**

- Shortcut Insert new slide current

Presentation in P. Point? **Ctrl + M**

- for <sup>open</sup> new document? **Ctrl + N**

- In MS-2016 which Command not avail in Insert menu? **Coloumns**

- which type computer program used to design an "invitation card"

**Desktop publishing**

- Father of Computer? **Charless Babbage** (uk. mathem)
- Macintosh developed by which company?  
**APPLE** (1, APRIL-1976) (Steve Jobs/steve woznyk), **HS** (cup  
cati)
- Short key switch to next window? **Alt+tab**
- Short key close select window? **Alt+F4**
- In MS-Excel function automatically total coloum & rows value? **SUM**
- Which is not a major reason for an email bounce. **state file handle**
- Transfer data one place to other is called? **Data Commounication**
- What used a disk Scanner in a microsoft windows? **Disk cleanup**
- A program that destroy all of your computer program? **Virus**
- In compute NOS stand?

### **Network operating System**

- Which way cannot used link excel worksheet data to a word document?  
**with copy and paste buttons on a standard toolbar.**
- In MS-Excel, if numeric value starts with --- then this value can treat as table? (**#**)

- Which is oldest search engine? **Yahoo**
- Which nbr. key used with sift type is a %? (**5 %**)
- Following software is used prepare presentation? **Power Point.**
- To embed excel worksheet object in a word document?  
use excel menu bar and toolbar inside a word document.
- A computer on internet identify by its: **IP address.**
- What is bulk email known as (**Spam**).
- What term describe a picture that has been resized by a Percentage? **Scaled.**
- Which is not a application software? **Windows NT**
- MS Excel is used? **Organize data**
- Which is used to show a specific row or column print page?  
**Print title.**
- Not example of internet browser?  
**Fire Zilla**

- MS-Power Point example of ? **Multimedia**
- Which computer software whose user interface and API resemble that of print driver? **Virtual Printer**

- In MS word 2007 select coloum of table from bottom to top, Press?

**Shift + Alt + Page up**

- Add or Remove program is? **"Utility Program"**

- You want to insert paragraph one document into another document?

**Copy and Paste.**

- Excel Evaluate the formula =  $20 \times 10 / 5 \times 8$  answer?

**320.**

- In MS-Word "Drop Cap" on word default first character word drop.

**minimum = 3 Lines , Maximum = 10 Lines**

- In MS-Word view Show margin and rules?

**Page lay out**

- In Excel you can sort data?

**(1) Ascending order (2) Descending order**

- Cells in MS-Excel can be uniquely

**Identify by? Coloum letter & row numbr**

- The word platinum is related to

**Microprocessor**

- To print Power point Presentation  
Press? **Ctrl + P**
- Amazon is best example of?  
**E-Commerce**, HQ: **(Seattle, Washington USA)**  
Amazon founded: **5, July, 1994** Founder: **Jeff Bezos**
- A computer cannot function without?  
**Operating System**
- Software that assists you or acts on your behalf to perform repetitive computer related task is? **Robot**
- In MS word 2007 is used to move directly to specific location in a document? **Bookmark**
- Which following is not used to access a web? **CPU**
- In power point which contains pre-defined? **Theme**
- In MS Excel you can use horizontal and vertical scroll bar?  
**View different rows & Column**
- You should save your computer from? (1) **virus** (2) **Time bomb** (3) **Worms**
- The page Orientation can be in style?  
**Landscape & Portrait**

- DSL stand for? Digital Subscriber Line
- Who Invented computer mouse  
Douglas Carl Engelbrat (1973, USA)
- In MS-Word, short key for underline the select text? **Ctrl+U**
- which function calculate largest value in set of numbers? **Max.**
- From what location are 1st Computer instruction available on bot up? **ROM BIOS**
- Animation scheme can be applied to in presentation? **(All, select, current) slides**
- LINUX is? **Operating System**
- largest unit of storage? **Terabyte**
- What contains information like text, image or music? **File**
- In MS-Excel "undo" option will --- last action? **change**
- which key press "start new line" in a MS-word? **Enter key**
- "Docx" is extension of? **MS word**
- Short key you can press to copyright symbol? **Alt + Ctrl + C**
- Following Excel feature allows user evaluate value and return a result? **Formulas**

- A webpage unique address? **URL**
- MS-Excel will not be able to calculate which of following formula?  
**SUM(Sales)-A3**
- To start slide show presentation?  
**F5** (open search box F3, update file F9)
- Short key for close active window?  
**Cntrl + F4**
- Physical part of computer can see & touch? **Hardware**
- Excel is? **spreadsheet program**
- when you insert a picture into a document the default text wrapping option is? **Line with text**
- A set of instruction that operate various part of computer hardware is called? **Software**
- which device is used for data permanent? **Hard disk**
- which file used to help recover lost data if computer are normally halted?  
**TEMP.**
- which key use word 2007 delete character right of blinking cursor? **Delete**

- 8 bits = 1 byte • 4 bits = Nibble
- Name Bill gates wife? Malinda gate
- Father of Internet? Vint cerf
- Task Manger is a? Software
- "Firewall" in computer used for purpose of? Security
- To create form wizard we use table? 2
- Data files are categories as: Document
- In Ms-word 2007 which key use to extend a selection one character to "right side"?  
Shift + right Arrow
- A Joystick is an? Input device
- Data store on hard disk can save on following? (CD, Magnetic tape, Floppy disk)
- In window pc: "Ctrl+Y" in Power point shortcut for? Redo
- An electronic copy of data such a file viewed on computer display is called? Soft Copy
- Smallest unit of storage? Bit
- Programme written to make computer function is desired way? Software
- Which key to close a run dialoge box in window? ESC

- Which short key is used align selected text to left in MS-Word?  
**Ctrl + L**
- Add new Hardware "option exist" in **Control Panel.**
- In window operating system is known as "File Manager"? **Window Explorer**
- C.L.I stand? **Caller Line Identification**
- One way to open help menu quickly is to press short key? **F1**
- Function similar to mouse? **Joy stick**
- Microprocessor switching device are for generation Computer? **4th**
- In window PC shortkey Copy? **Ctrl + C**
- Who invented QWERTY keyboard ⇒ USA  
**Christopher Latham Sholes (1870)**
- The thin black cross-shaped pointer in MS-Excel? **Highlight duplicate cells**
- In Computer "DOS" stand for?  
**Disk Operating System**
- In MS-access following data type allows alphanumeric character symbol for special? **Text**
- Shortkey for paste copy? **Ctrl + V**

● In E-mail Service, Sign used? @

● Default language of Microsoft Word?

USA English

● following device data store permanent? Hard disk

● when create new table which method

used chose field standard database

and tables? Create table using wizard

● Rows in Microsoft Excel are labelled as

1, 2, 3 etc.

● In which transmission mode is communication

two-way with channel being used by

both connected device simultaneously?

Full duplex.

● A type of malware often disguise

as legitimate software is? Trojan Horse

● A computer virus is?

A computer program

● what Power Point feature will you

use to apply motion effects to

different object of slide?

Animation Scheme

● In Microsoft window 7 — can give

you information about weather?

Gadgets

- In Powerpoint 2007 orderly display of information using different object of Slide? **Layout**
- When you insert a comment in document the comment appears in? **Balloon.**
- What feature use to apply motion effects in b/w a slide exist and another enter in powerpoint? **Slide Transition**
- Which widely use for transmitting Streaming video data on Internet? **AVI**
- Sorting Can be done? **Alphabetic, Numeric, Date and time**
- In power point new presentation created from? **Blank Presentation**
- Notepad in computer can used for? **Text**
- To get connected to Internet the computer has connected? **Internet Service Provider (ISP)**
- Which program run first after computer is booted and loading GUI? **Desktop Manager**

• which is not necessary for working of a standalone computer?

LAN card

• Combination of strength and speed ability is called? Strength endurance

• In MS-Excel 2016 we go to cell A1 by pressing? Home

• Background colour of document is not visible in? Print Preview

• In MS-Word 2007 to extend a selection to beginning of a paragraph?

Ctrl + Shift + up Arrow

• A word template stores common document? Content.

• following is text editor? Note Pad

• Faster memory is? Cache

• MS-Word and MS-Excel are? Application Software

• Largest Hardware Company? { Founder => Bill Havlett  
David Packard  
HP (Hawelett Packard) (1 Jan 1939) (California USA)

• Basic operation perform by Computer?

1) Arithmatical (2) Logical (3) Storage

• In Computer has more than one processor that its known as?

Multiprocessor.

- A light sensitive device that convert drawing printed text or image into digital? **Scanner**
- A collection of system programme that control and coordinate the overall operation a computer system is called? **Operating System**
- What type of operating system MS-DOS?

### **Command Line Interface**

- Which technology is used in compact disks? **Laser**
- In computer which part is most complicated? **CPU**
- (1) one bit can be? **1 or 0 (zero)**
- "Fox Pro" is? **Language Software**
- How much data can a single layer single DVD can store? **4.7 GB**
- A single work sheet? **256 Column**
- Combination of "16" bits? **Word**
- Which country has more computer? **USA**
- F12? **Save as**
- Cntrl + K? **add Hyperlink**
- Undo is use for? **Discard something**

- In Power Point Slide two Sound files can be added what was called?  
Wav or Wma
- To access directly font dialogue box in Powerpoint? Cntrl + T
- Handhold device called? Hardware
- Cntrl + End? End of document
- default font style of MS-Word?  
Calibri font
- which device accept data from outside the Computer & transfer in CPU?  
Input devices (mouse, keyboard, Scanner)
- Spam mail fraudulent e-mail are called?  
Junk mail
- who Inventor mouse? Douglas Englebert (USA, 1973)
- which was following is a conventional designation of pre-released Software?  
Beta
- Temporary storage place for information in computer is called? Buffer
- Prevention of Electronic crime Act was Passed in Pakistan? 2016
- Time required for a computer to locate and transfer data is called? Access time

● The area inside computer frame and auxiliary where data and instruction are stored called? **Memory**

● An extremely small piece of silicon on a integrated circuit are fabricated called? **Chip**

● Program written to make computer function in desired way are called? **Software**

● Shortkey of "Cut" in word document? **Ctrl + X**

● Shortkey fo "Print"? **Ctrl + P**

● What term used term denote unothrized and illegal access to internet?

**Hacking**

● Hard disk in a computer? **Storage Device**

● In which year 1st widely available web browser, Mosaic, released? **(1993)**

● Biggest company computer software?

**Google** (Bill gates/

, 1998 (HQ = California USA)

● A network that cover large are, city, country is called? **WAN** (wide area network)

● "JPG" extension usually refers to what kind of file? **Image file**

● In MS-Word the process of removing the unwanted part of image called?

**Cropping**

● Shortcut key making "Bold"? (Ctrl + B)

● A computer cannot perform without?

**Operating System**

● which file format can be added to a Power Point show?

(1) .gif (2) .Jpg (3) .Wav

● which file is responsible to start MS-Word? **Winword.exe**

● Shortkey for text italic? **Ctrl + I**

● DPI stand for? **Dots per Inch**

● "Window 2007" is an? **Operating System**

● All files deleted from computer are stored in? **Recycle bin**

● Software programme that control a piece of hardware is? **Driver**

● A programme used view "WWW" pages such as google, Yahoo and Internet explorer is called? **Browser**

● In Computer "BOOT" is used? **to start Computer**

● A collection of computer they are connect together? **Network**

• which device required for Internet?

Modem

• A normal CD-ROM can usually stored?

680 MB. for standard CD-ROM (700 MB)

• Hard copy of document? Print out

• which is done to protect data and password? Encryption

• Facebook is a? Social network

(2004, Mark Zuckerberg, HQ - USA)

• which is famous E-mail programme?

Gmail

• Unit of storage capacity of hard

disk? Megabyte

• Small files that despite on user hard drive when they visit website are

best describe as? "Cookies"

• A voice mail box in a voice

mail system is storage location on hard disk

• which is protect data and password?

Encryption

• The browser — keep a list of web

pages you have visited current session?

History

• A certificate is guarantee use website is

legitimate? Digital

- measuring unit of capacity of hard disk save as? **GB** (Gigabyte)
- Shortkey Shift + Delete  
Delete selection item permanently without replace recycle bin.
- You can insert Header and Footer?  
Insert menu. {only for<sup>use</sup> Header = View menu}
- within a browser what does Home do?  
Display content of your designated start page.
- To process of transferring files from internet to your computer is called?  
**Downloading**
- Shortkey ms-word used Align selected text centre? **Ctrl + E**
- Ctrl + N is used to? **Open New document**
- Minimum nbr Rows & Column in MS-Word?  
**1 and 1** maximum:
- Smallest font size available in formatting toolbar? **8** largest: **(72)**
- Selecting text mean? **whole document**
- which is Graphic solution for Processor?  
**Clip Art**
- Any crime involves Computer Internet?  
**Cyber Crime**

- Tool use for finding similar meaning in a document called? **Thesaurus**
- Which Powerpoint feature allow to user create simple presentation?  
**Auto Content Wizard.**
- Which helps to reduce spelling error in document being typed?  
**Auto Correct**
- FTP stand for? **File transfer protocol**
- USB stand for? **Universal Serial bus**
- The programme contain instruction to operate a device is called?  
**Device Driver**
- All of computer responds to the command coming from?  
**Control Section**
- In MS-Excel cell name box?  
**Appear to left of formula bar.**
- In MS-Excel file you create and edit is called? **A workbook.**
- When you create warning box to prevent invalid data entry, message, shows in? **A yellow triangle.**
- In MS-Excel to create formula first?  
**Select cell you want to place formula.**

- In ms-Excel comment put in cells are called? **Cell tip**
- Linux is an - Operating System.  
**Open Source.**
- Key starts with F1 to F12 are?  
**Function keys.**
- Following term refer to ability of computer to automatically configure a new hardware component added to? **Plug and Play**
- Following is used to change margin in ms-office? **Page setup dialogue box**
- WORM, in field of computer stand?  
**Write Once read many.**
- First (1st) mechanical calculating machine?  
**Blaise Pascal (1642, also called Pascline)**
- Short key to close a select window?  
**Alt + F4**
- ASCII was formed? **(1952)**  
One kilobyte = **1024 (byte)**
- which is extension of graphic file?  
**(1) JPEG (2) GIF (3) BMP**
- Information Technology starts? **1942**  
BAT extension usually used kind for?  
**Back up files**

- Following is section of hard drives?  
**Partition**
- Printer use for best quality graphics reproduction? **Laser printer**
- Father of Internet? **Vinton Gray Cer**
- Move to Second tab in Excel?  
**Ctrl + Pg down**
- Hyperlink in MS Powerpoint? **Ctrl + G**
- MS-Powerpoint shows black screen when pressed?
- A computer drives basic strength?  
**Speed Accuracy Memmory**
- Computer cannot do anything without?  
**Memmmory**
- A computer consist of many electronic?  
**Devices.**
- To copy picture of screen on the clipboard use?  
**Print Screen key.**
- meterial used in computer chips?  
**Silicon**
- PNG file extension of? **Image**
- Output quality of printer measure in a? **Dot per Inch.**

- Hyperlink is? A word phrase that when click display another document.
- D.M.S (Document management System) include? Desktop Publishing.
- Unit control all parts of computer? CPU.
- Electronic Path sends signals from one part to another? BUS
- In MS-Word Home key move cursor to? Beginning of line.
- which is processor? Pentium
- In MS 2007 Hanging Indent? Ctrl + T
- In MS word 2007 Short key used to increase left indent? Ctrl + M
- A computer program that converts entire program into machine language? Compiler.
- In most IBM PCs, the CPU device drive memory expansion slots and active component are mounted on single "board" what is name of board? Grand mother board.
- Latest version of MS-Excel? Excel 2016.

- In Microsoft Windows 7, — can give you information about weather?

## Gadgets

- When using computer which is involve reducing electricity consumed environment waste generated?

## Green Computing.

- In Word document describe size, weight and spacing of character?

## Font.

- In MS-Excel 2003 chart wizard term data categories refer to?

## A Horizontal axis.

- Following is an example of Database Management System? ORACLE

- Speed of Laser Jet Printer?  
Page per minute.

- Dot matrix Printer Speed?  
Character per Second.

- Speed of Line Printer?  
Line per minute.

- Ctrl + ] = Increase font size

- Which key used for change font?  
Alt + Ctrl + f

• Which is not used for editing picture?

Corel Draw

• Notepad is used for? Word (text)

• In MS Powerpoint used of image for our presentation select through?

• A FIFO replacement algorithm associate with each page the

Time it was brought into memory

• which address generate by CPU?

Logical address

• RAD stand for? Rapid Application Development

• SDLC stand for? Software development life cycle

• Bluetooth is an example of?

Personal Area Network

• Binary value of 200? (11001000)

• When First E-mail sent?

(1971) Electronic mail (Roy Tomlinson) <sup>founder</sup>

• In MS 2013 Quick access toolbar allows to you access common?

Commands

• which — Act as a buffer between CPU and main memory?

Cache memory

• An e-mail address consist of two parts username or ID and?

Domain name.

• VGA stand for? Video Graphic Array

• Command used to select a text at end of line? Ctrl + End

• Boot mean? Computer start up

• Sillicon valley? California

• when you working on document by default word automatically save your document? Every ten minute

• In MS Excel A worksheet range is?

A group of cells

• In MS word 2007 you want to create built in cover page for your report you go to? Insert tab

• In MS word 2007 you want to delete one word from right side of cursor then press? Ctrl + Delete

• which is used for weather fore casting? Super Computer.

• Brain of computer? CPU

• A computer is capable of performing almost any task provide?

Reduce to series of logical steps.

• In Computer network, WAP service is related to?

Wireless networking

• which is different from other?

S.D card

• In field of Computer what is BASIC (Beginners All-Purpose Symbolic Instruction code)? A programme language.

• What used in Computer to protect a network server from damage by those who log into? Firewall

• PDF is text format designed by Adobe stand for? Portable document Format

• In MS-Word Home key move cursor to? Beginning of Line

• In MS-Word Ctrl + Pagedown is use? One page down

• which view can you see text and graphics appear on printed page?

Print Lay out

• Short key for create a chart from the selected cell range?

( F11 )

- MS-Excel accidental erase record on Sheet Command restore immediately?

(UNDO)

- In MS-office lower case character to upper case character? Shift + F5
- Tool to change PROM chip are called?

- The term 'Bit' is short for? Binary digit

- The best Orientation to fit maximum column on single sheet print?

Landscape

- which term refer sharpness or clarity of image? Resolution

- key used to view slide show? F5

- A single page of powerpoint presentation is called? Slide

- which object is output the database application? Report

- In MS-word 2016 to extend a section to adjacent cells of table?

Hold down Shift and press arrow key represent.

- ALU is component of processor which consist? AU, LU (Logic unit)

Arithmetic unit

- One Megabyte = 1024 KB
- Shortkey for check grammer in ms-word? F7 , (F5 = view slide show)
- Shortkey used to open Short up menu?  
Ctrl + Esc
- Handhold device are called? Laptop
- Shortkey change font in MS-Word?  
Ctrl + Shift + P
- Red underline in MS-word illustrate?  
Spelling mistake
- which is read only memory Storage device?  
CD-Rom
- A Pixel is? Picture stored in Secondary memory
- A cursor is a? Pointing device
- DMA stand for? Direct memory Access
- Spelling and grammar check option avail in? Review
- In MS-Word what is document outline view? A view structure of heading at various level.
- key stroke combination for entire document?  
Ctrl + A
- User developed instruction for Excel called?  
Macros.

• Ctrl + R is used =

• A Compact disc can be read, written many time erase and write again?

CD-RW

• In Computing BIOS stand?

Basic Input / Output System

• multitask Operating System include?

• Windows XP, Unix, Linux } not include = DOS

• Add new hardware? Control Panel

• ATM stand? Automated Teller machine

• HP stand for? Hewlett Packard

• which is not Operating System?

Oracle.

• Quick time is a? Media player

• which category function use in formula  $PMT(c, 10/12, c_8, c_9, 1)$ ?

Payment

• which is not a Powerpoint view?

Presentation view

• In word processing an I-beam facilitate?

Highlighting text.

• To ensure a graphic you insert in document is not distorted when you resize?

Lock aspect Ratio

• Shortkey for Centre Alignment?

Ctrl + E

• In MS-Power Point "clip Art" option Avail?

Insert view

• Disk Cleanup is? Utility Programme

• In MS-Excel view. cell Comment?

Position mouse pointer over cell.

• Reading Internet acronym ISP refers to?

Internet Service Provider.

• You can create new Presentation by completing all of following except?

Clicking File Open

• Name of Power point file can be seen?

Title bar

• In Computer System — work in similar fashion as files in folders are physically maintained in real world?

Directories

• what do you see if you hover the mouse over chart object?

Screen tip

• Robot is used for? military, medical

• Answering a receive E-mail is called? Reply

- PNG (Portable Network Graphics) is an example of?

Raster graphics or Bitmaps

- which carries information b/w Processors and peripherals?

Data bus.

- In MS office to have your Macro available to all new document you create store in?

The Normal Template

- BIOS stored in? Flash memory chip

- To move b/w worksheet in workbook in Excel use? Cntrl + Page up

- To Zoom Excel worksheet we use? mouse pointer in Print view

Zoom button Print view toolbar

Zoom Command View menu.

- A highly quality CAD System for printing device and graphs.

Digital Plotter

- In MS word break column?

Cntrl + Shift + Enter

- In MS<sup>word</sup> 2007 end of document?

Cntrl + Shift + End

• Smallest addressable element Image?  
Pixel.

• In Computer Science "Univac" is?  
Universal Automatic Computer

• most Powerful Computer is?  
Super Computer

• In MS word font style consist?  
Bold • Italic • Superscript

• Microsoft point used to create?  
Presentation.

• Wi-Fi stand? Wireless Fidelity

• DSL stand? Digital Subscriber Line

• Name Software programme transfer hi-level Source Code in hi-level Programme language into low level object code in machine language?  
Compiler

• You want to track Progress of Stock market daily basis use chart type?  
Line chart

• In MS word 2007 Short key Insert Comment?  
Alt + Ctrl + M

• FDD stand for? Floppy Disk Drive

• Window Explorer is a?  
Utility Programme.

• Boot means Computing language?

To load an operating system

• Google was founded by Larry Page and Serge Brin. It is an..?

Search Engine

• OS stand for? Operating System

• when Collection of various computers seem in single coherent system to client is called?

Distributed System

• mainly which port is used in computer?

• Michael Dell is famous name in?

Computer Industry
