1. What are the characteristics of software?

a. Tangible and heavy
b. Intangible and weightless
c. Physical and expensive
d. Lightweight and costly
Correct Answer: b. Intangible and weightless

2. What is the primary function of software? a. Displaying images
b. Operating the computer
c. Creating hardware
d. Enhancing speed
Correct Answer: b. Operating the computer

3. Which type of computer is used mainly by large organizations for critical applications like census and bulk data processing?

a. Super Computers
b. Microcomputers
c. Mainframe Computers
d. Servers
Correct Answer: c. Mainframe Computers

4. What are the characteristics of Super Computers?

a. Low speed, less accurate, cheap
b. High speed, most accurate, most expensive
c. Moderate speed, moderate accuracy, affordable
d. Slow speed, least accurate, economical
Correct Answer: b. High speed, most accurate, most expensive

5. Which devices are considered Game Consoles?

a. Laptops and Desktops
b. Digital Cameras and Smartphones
c. Microsoft XBOX 360, Nintendo WII, Sony PlayStation
d. Servers and Mainframe Computers
Correct Answer: c. Microsoft XBOX 360, Nintendo WII, Sony PlayStation

6. What is a portable computer designed for mobile use called?

a. Mainframe Computer
b. Super Computer
c. Microcomputer
d. Laptop computer
Correct Answer: d. Laptop computer

7. What is the primary objective of the lecture on Computer Proficiency License (CS-001) Module 01?

a. Teaching computer programming

b. Explaining advantages of computer hardware
c. Providing information about computer components and parts
d. Discussing computer software development
Correct Answer: c. Providing information about computer components and parts

8. What does the term "hardware" refer to in a computer?

a. Software elements
b. Physical components
c. Input devices
d. Output devices
Correct Answer: b. Physical components

9. What is the function of the USB Port in a computer?

a. Connects keyboard to the computer
b. Supplies power to the computer
c. Connects computer with other peripherals and monitor
d. Reads data from CDs
Correct Answer: c. Connects computer with other peripherals and monitor

10. What is the primary role of the System Unit in a computer?

a. Provides power to the computer
b. Displays running status of the computer
c. Houses the processor, motherboard, and other components
d. Connects keyboard and mouse to the computer
Correct Answer: c. Houses the processor, motherboard, and other components

11. What is the function of the LAN card in a computer?

a. Producing sound via speakers
b. Connecting the computer to a network
c. Reading data from CDs
d. Connecting a mouse to the computer
Correct Answer: b. Connecting the computer to a network

12. What is a keystroke?

a. Pressing multiple keys simultaneously
b. A single press of a key on a keyboard
c. Typing a full sentence
d. Pressing the enter key
Correct Answer: b. A single press of a key on a keyboard

13. Which keyboard type is commonly used for multimedia purposes like video editing and sound design?

a. Standard keyboard
b. Numeric keyboard
c. Alphabetic keyboard
d. Specialized keyboard
Correct Answer: d. Specialized keyboard

14. How many basic types of computers are mentioned in the provided paragraph?

a. Three
b. Five
c. Seven
d. Ten
Correct Answer: b. Five

15. What is the main function of embedded computers?

a. Operating the computer
b. Serving as central electronic machines
c. Providing computing power to devices
d. Being fixed as components in products
Correct Answer: d. Being fixed as components in products

16. What does a sound card do in a computer?

a. Connects keyboard to the computer
b. Produces sound via speakers
c. Develops a network connection
d. Reads data from CDs
Correct Answer: b. Produces sound via speakers

17. What is the purpose of the Power Connector in a computer?

a. Connects computer with other peripherals and monitor
b. Supplies power to the computer
c. Links computer with external devices
d. Connects a mouse to the computer
Correct Answer: b. Supplies power to the computer

18. How is a laptop computer different from a desktop computer?

a. Laptops are heavier than desktops
b. Laptops are more expensive than desktops
c. Laptops are portable and designed for mobile use
d. Laptops have larger screens than desktops
Correct Answer: c. Laptops are portable and designed for mobile use

19. What is the primary function of the processor in a computer?

a. Producing sound via speakers
b. Cooling down the system
c. Performing all the processing

d. Connecting to a network
Correct Answer: c. Performing all the processing

20. What is the purpose of the Drive Bay in a computer?

a. Connecting to a network
b. Producing sound via speakers
c. Installing hard drives
d. Cooling down the system
Correct Answer: c. Installing hard drives
